Found it hilarious that u couldn't find me on the internet!

Guess I'm off the grid. :)

B like that some time!

Can't wait till I'm no longer on the doc website

So help my geographical ignorance

Where is Kashmir?

Sounds like a place in India

That's cool of him 2 b so family oriented definitely a lost art,with men anyway or maybe just those in my culture!

Lord knows we need patriarchs

Cause in black America the family's tend 2 b matriarch centered around the grandma on ur mom side

So do y'all face time or whatever its called. Instagram! Tweet?

Well hope 1 day his family uses all the things he took time 2 lovingly pack

Visiting is always a nice thing 2 do. Is he popping up? Or is this the annual visit? Do u normally go?

Has this Corona Virus effected his travel plans? R NE of his loved ones effected? Quarantined?

How bout yourself?

R u OK?

I know its spreading like wildfires

Nobody here got it but guess 1 guy got quarantined cause he was exposed 2 at a county jail when he went back 4 court!

Still as precaution they shutdown our contact with the free world.

No church, Bible study, groups, pastoral visits...

Only thing still going is lawyer visiting

Can't even see ur family n friends

No time table either

Only other thing they doing is going unit by unit n washing all our linen! Normally we only get clean sheets on Thurs n clean blankets like every 3 months!

Tryd 2 get a mask but they only give u that after u or ur roommates get sick. Can't even get latex gloves though there's boxes n boxes available. Make sense 2 let me wear em specially since its spread by touching stuff n prison ain't the most hygienic place. Guess that's another freedom I lost - the right 2 protect my self from sickness n disease! So I'm a sitting duck begging god 2 protect me from this virus like he protected me from the flu n pneumonia. Amen

This plague definitely has helped me stop biting my fingernails!

Oddly enough the Bible spoke on these things.

Matthew 24:6-8 key word Pestilences

Meanwhile the thought came 2 me this morning as I found myself despising this particular location

"" HEAVENS MORE APPRECIATED WHEN U BEEN THRU HELL ""

Yeah that's what they pretty much did in Racine, Wisconsin my home town. SC Johnson bought up the poor neighborhood surrounding their corporate headquarters n erected buildings n non houses in an effort 2 beautify things n drive up the property value. Like I said they even bought people out of their homes. Couple thousands over the market price at the time! But that is the nature of the beast . sell u on the need 4 instant gratification!

That's unfortunate bout the playground situation. Then its like do I want my kids 2 play there when u made it plainly obvious u don't want them there?

Y treating me like a human being has 2 b legislated?

Y somebody gotta b shamed into treating me right?

Y should I accept someone throwing me a bone?

It' just like in the fashion industry some designers told white media they didn't design their clothes 4 inner city kids nor do they want them wearing their product. Most notably Tommy Hilfiger n Timberland. Course when word got out they did the usual PR campaign via rappers n the like...

Thanks 4 the fiscal lesson now when I see pounds on Escape 2 the country I have an idea how many US dollars I would need if I was 2 escape 2 the country! N now I see what people r talking bout when they speak on a weak dollar. I wonder if things cost pretty much the same? But commercials r all I have 2 go by! Like a new Ford Pick up 4 \$30,000

Well the States definitely got better welfare rates! Broke my heart 2 tea they won't pay 4 any more than 2 kids! Sounds Chinese

So what's the reasoning behind it?

Well \$60 every week want he u far over here either. Heck a 1 bedroom apt is like \$325/ month!

Well guess I won't b having kids in Ireland! Guess nobody heard that song that says "" I believe children r the future..., ""

I tip my hat 2 ur aunties husband. He 4 sure brought home the bacon!!! He's my hero!

Hopefully 1 day I will make significant amounts of money n b able 2 share the wealth at home n abroad. Imagine rolling up on a stranger n handing them \$5,000-\$10,000!

Smile u could b the next contestant!

So there's no hustles over there where u can get extra income?

Something like a game show? Or something like collecting cans? Scrap metal? Plastic/ glass bottles?

So what university did u go 2? All I know of is Oxford

Can u b a professor? Maybe write a book?

Sure there's something positive u can do 2 generate extra income.

There's \$ inside u!

Remember..

Somebody gave ur daughter her artistic talent! Either u or her dad!

Ever thought of moving 2 another country?

Travelling is in my plans but its getting more n more unlikely by the day. Beyond the current travel bans I still don't know how much travel liberty I have as a result of my felonious status! Might have 2 get a pardon 1st! N u have 2 b off parole like 5yrs 4 that! At present the system will have me till I'm 93! Talk bout a life time commitment! Meanwhile not even sure if I can take a cruise.

Feel u on Korea. Interestingly enuff I have a niece that is a third Korean. Haven't really seen they culture but... I'll visit nevertheless. Got no familiarity with they food either. Yeah I'm a picky eater if I don't like how it look or smell all bets r off! Took me over 30 yes just 2 eat broccoli n longer 2 eat cauliflower n can only do it when its smuggled in a chow mein or beef stew! Joly ranchers r cool as a candy. Love pink lemonade poptarts r all right but not enuff filling or crust.can't wait till I can try a toaster strudel

Yes God works magic in dreams. Recently he showed me how 2 crochet a better shoe at work .in the dream I ran into some white fabric hours later in real life I ran into black fabric,nevertheless ! Now its on! Bout 2 do a university of Wisconsin badger shoe! After that more creative works 2 follow.its all just confirmation 4 me that god gone bless me with an art / fashion/ craft boutique.

See u there!

Plus know God raising me up! 2 b something like 2nd in command! Grew up being in student council n vice president of culture clubs etc

Well gone send this b4 I mess something up

More 2 come

Respectfully

MRF
