THE SAFETY OF WORDS

For my family and friends: be advised that visitation at the prison has been cancelled for 30 days, and most likely longer.

Thankfully, we are still getting our mail.

Remember to write me as addressed:

With the "U.S.A." obviously for my family and friends overseas. All of you, please stay safe, I miss you and worry.

It's said that COVID-19 only lives on surfaces for 3 days, and that the mail is safe. Even if you thought it wasn't, a quick spray of disinfectant on it and/or in your mailbox should do the trick.
