

HARD SHIPS OF THE MENTALLY ILL.

I am currently housed at Mule Creek State Prison and enrolled in an (-EOP-program)-Enhanced Out Patient - EP is a yard designated for inmates that are suffering from mental health issues. I was placed here due to my depression and anxiety.

Since my arrival 4/23/2019 I've witnessed numerous assaults on the mentally ill by staff. Many of the staff purposely taunt mentally challenged inmates - one such incident was an officer made a statement toward several inmates as they were coming out of the chow hall saying - "Look even the seagulls are laughing at the inmates". The demeanor of staff towards inmates is poor - we have to endure their behaviors the only redress we have is appealing (602) an officers behaviors - but rarely is anything accomplished by filing a (602) against an officer. The ones that hear the appeals are officers (sergeants) and they always side with staff.
