

# WHY DO Siblings drift apart

It's been over 30 years since I've seen my sister (Diane Magorria.) I don't know why we lost touch with each other - Perhaps it's because of my incarceration. I'm not sure what it is - I'm not even sure how to get in touch with her as I don't have her address. I guess in time her curiosity will peek and she'll write me. My advice is love each other in the present and get over selfish pursuits. Our family is a one time shot so absorb the love they offer.
