* EVEN IN PRISON People *
* Are panicking about the Virus *
* * * * *

Several prisons are either on Lock-down or are on a modified program due to the Scare of the Corona Virus.

Only one building at a time is allowed to use the main yard as normally all (5) of the buildings would be released out to the yard at the same time. We are also being Cell fed - No one is allowed to go to the chow hall - with the exception of critical workers. When the virus enters into these confines we then will be on a full blown lock-down. Many of the inmates are stock piling goods from our inmate canteen as no one knows how long this is going to last.
