SOMETHING CAN BE DONE ABOUT IT!

BTB.

15 April 20

A lot of people out there haven't had the time to be alone with their thoughts — ever! So I expect this covid crisis will likely rock their world.

I, on the other hand, have been quarantined in quasi-isolation for decades now. So maybe my point of view will be helpful.

The dictionary defines CRISIS as; [Gk. Krisis, Lt. decision, to decide], 1: the turning point for better or worse. 2: the decisive moment. 3: an unstable or crucial time or state of affairs in which a decisive change is impending.

It's too bad that so many people are oblivious to the karmic consequence of their decisions — so often made in haste. Or the consequence of their indecision, as the case may be.

This is a pretty daffy planet in a rather strenuous universe. There is one thing for certain in that world of uncertainty: Education makes a world of difference. Every crisis presents opportunities to create *Ordo ab Chao*.

Mind you, when you start to introduce order into anything, disorder shows up for a while. That's the phenomena of paradigm shifts. There's a degree of confusion involved.

The best decision I suggest people make to handle confusion is to pursue EDUCATION. Unfortunately there are demagogues in cyberspace riling up anxiety with conspiracy theories which threaten to victimize everyone. Beware! I bought into that hype once upon a time and COINTELPRO agents "helped" make my life sentence possible. Don't be deceived.

I've since learned that Scientology can and does change human behavior for the better and puts the individual in control.

of their self. In my own pursuit of education, I discovered a science of life that helps me handle the basic rules of life and bring order into chaos, within my zone of influence atleast.

See for yourself though: www.volunteerministers.org has 19 videos which are free to watch. Considering the current crisis, I suggest viewing [http://course.volunteerministers.org/play/video/vm film solutions](http://course.volunteerministers.org/play/video/vm%20film%20solutions).

Educate yourself with a practical technology to control the confusion in that world of uncertainty. Education makes a world of difference.

For the Love of Truth.
