Subject: I WRITER

March 11,2020

Gift of faith, given me

Keep givin like the giving tree

Even when life not so pleasantly

Faith in God my pleasantry

January 29,2020

Hearts different

Wit no sanctuary

Midsummer January

Ice cold February

Up n down on repeat

Rain snow or sleet

No clasped hands - just defeat

God's real like pulled teeth

Pulling me

2 eternal victory

Da rest is History

See U in heaven

Da mystery

Life lived wit no misery

WHAT I LOOK LIKE?

BBQ

Ribs

Mashed potatoes

Potato salad

Hold da E

Tryn 2 get full

Seasond chicken

Hamhocks

Neckbones

Collard greens

Still finger licken

Crawler peas racing turtles

Wit black eyes

Hold da juice

Or corn bread soggy

Arrival of crisp

Got da kitchen foggy
Fand away wit
Hand fans
And
We justttt
Scrape it clean
Inside the narrowness of
Neckbones
Thick like Jerome Bettis
We call each other dogs
But don't get it
If we had 1
He'd b jail-lis
Kraft Mac n cheese
Velveeta
Who doesn't like
Gold on Pixie burgers
When we eat we use metaphors 4 murder
The butler did it
Corn on the Cobb buttered
Same knife as biscuits
Roaches covered in flour we bake wit
Peanut butter in a can
How is that good?
Cookies cut ya mouth
How is that hood?
50¢ worth of meat
"Cut it real thin"
I'm thin but
Thinner

H8 finds love
Disgusting
Without God
Who R we trusting

November 21,2019
Subtle rain,spitted mist
Walk on fog,get my gist
Prayin hands,get my lift
Tears upstream, get my drift
Words anemic,this a gift

Shot out 2 health care workers on the front lines of this Covid-19 epidemic

Should of been there with y'all

NEway great job

Love ur heart

N faithfulness 2 the Hippocratic oath!

Gotta love U

I literally pray healing reaches U all who may have contacted the virus as well as ur loved ones/
patients

Know a cure is round a corner

Love y'all wisdom in coming up with the idea 2 use the plasma of healed patients 2 heal the sick

God bless

Reminds me how Jesus heals us via his healed/healing blood

Amen

Wish I could donate but...

But this bout y'all

So thank u 2 all the nurses doctors EMT s interns secretary s hospital staff janitors lab
technicians scientists chemists support teams/systems

Etc

Tip my hat n my heart 2 U

I AM WE

(Should've been Dr.)

MRF

Amen
