Subject: Birthday wishes

Alissa,

I pray u will receive whatever's missing in ur life. Whatever key ingredient that will make ur life more worthwhile. God loves u so much n I want u 2 know that He believes in u. Yes God believes in u. Now u go b that model,that corporate lawyer,that mom,that wife,that Alissa u always wanted 2 b,not saying ur not just,I know we R always in a constant state of growth n development. N U R growing n developing at this very moment. I can hear it. Uve come a long way,the moon is closer. I'm so proud of u.

Wipe those tears,

God says I'm still here

This day we will leave footprints in the sand

Love the great I AM

My greatest wish 4 u is that u will celebrate the purpose 4 which u were created

U R a wise woman who builds her house wisely

I love how u model friendship
