**Most difficult this lesson is!**

**To Have much Knowledge, But no Power The bitterest pain is.**

**I've long been able to study situations from the Ideal- to the Existing scenes. And the corresponding KRC necessary to remedy the Problems I've declared has proven most difficult with the degree of ARC endowment I had available in many instances.**

**Alas, I've done what I could in my quixotic crusades to raise interest in less than ideal scenes in hope that more equipped agents will re-cognize their responsibility to handle enmest within their zone of influence.**

**Doing this course reminded me of valiant efforts To Be cause and handle less than ideal situations, which in turn would enturbulate me as effect sometimes to varying degree.**

**Doing this course restored my confidence in my ability to observe the obvious. I'm able to be in PT when investigating the Ises and strategizing solutions to help raise the existing scene more toward the ideal scene!**

**For the Love of Truth – Clean Hands.**

**With more ARC than ever in PT, KRC is certain.**

**Thanks to LRH.**

MULE CREEK STATE PRISON

While doing this course I was made more aware of my current withdrawn condition finally determining to disconnect from SP environment in Chapel Games.

I am not part of a working society of consumers who are slaving away for the love of money. Therefore, I have no need to co-operate in a Shakespearean culture of complicity. I do what I do for the love of doing it to the best of my ability. And in that sense, Life is a Game.

My SPO game has been a work of love, and I am certain of the impact of that work. So now I rest in peace, seeing that it has mass and momentum. That alone will maintain the chapel space, awaiting professional VMs to assume responsibility for workshop seminars here at MCSP.

While I, after six yrs. service, intend to flourish and prosper in my own affairs, embracing the 8<sup>th</sup>, 9<sup>th</sup> and 10<sup>th</sup> Dynamics, quintessentially.

Understanding 'Tools for the Workplace', permits me to maintain self-determinism and succeed at any work or game I'm engage in. Thanks to LRH!

## SOLUTIONS FOR A DANGEROUS ENVIRONMENT

**Wow! Imagine Merchants of Chaos subjugating a world of apathetic slaves, because "The Phoenix are locked inside cages".**

**Being cynical of "Powers That Be" is commendable to me--knowing an Antagonistic tone is closer to Survival than is Apathy. And herein is my joy to help PTS cases understand their roller coaster condition as the overwhelm game it is.**

**I love heroes with amnesia. I love re-minding them of their responsibility to handle situations that need handling and their responsibility to understand the technology of Logic, which makes it possible to correctly handle situations in their zone of influence.**

**Solutions for a Dangerous Environment is a very valuable tool inside prison, helping to remind the vanquished to Confront by Gradient.**

**For the Love of Truth, restoring ARC toward KRC.**

**Thank you all at Clearwater for all your help in this ennobling enterprise.**

### MULE CREEK STATE PRISON

The EP from helping a fellow zealot understand and overcome SP/PTS phenomena, after successfully handing my own SP ordeal and parlaying that success into a PR opportunity, indicates that my price of freedom is now paying dividends, thanks to LRH.

My Beingness up to this most recent SP encounter was always relative to others anchor points, as a sort of opt term. Aberrated identities such as Iconoclastic Avenger; Innovative Pioneer; Quixotic Freedom Fighter, have all provided corresponding space and consequent games condition traps for me to have a worth while challenge to an otherwise boring life in exile.

This course helped me remember that space games are not who I am, in the identities I mockup. The world's a stage where imaginations play their roles as they understand life.

Always remembering that fact permits me the options TO BE or not to be relative in noosphere productions.

My first Cause of Suppression course certificate #3149 was issued to me from CRIMINON West in July of 2016. Doing that course at that time granted a good understanding of lifelong roller-coastering. But now with a newfound certainty about relative beingness, its much easier to Live and let live. To live my own life, understanding other-det. valences for the stagehands they are in the illusion they live. It took me 56 yrs. of being a roller-coaster enthusiast before I finally accepted that I can LIVE my own LIFE.

Better late than never.

**This was a long overdue incomplete in so many ways!**

Starting this course had restimulated unresolved battle scars and overwhelming invalidations from a track of investigations prompting actions I've always regarded as my responsibility.

Sadly, in applying more Force than Intelligence, the overwhelming invalidations are understandable.

Now that I've done this refresher course, I've recognized my own out-points and plus-points and with this renewed degree of Self Awareness I understand the Ideal Scene is realized by the Valuable Final Product.

I Can BE, DO, HAVE with restored Power!

Thank you all at Flag VM Center for all you do! But in particular, thank you for making these courses available to Prisoners who will one day return to your neighborhoods more intelligent than they otherwise would have been without our ennobling influence.

## FUNDAMENTALS OF PUBLIC RELATIONS

OMG! Understanding the missing ingredient in effective PR is reality and understanding that the art of communication must factor in the acceptability of a communication upon the mental composition of the receivers, my PR skill promoting SPO in the three universes had to be performed by a magician. I thought, mocked-up to appear...intriguing. There is one thing the casual audience responds to en masse, and that is technical expertise itself - adequate to produce an emotional impact.

Innovative Thoughts to help rid the planet of insanity, etc., has to rattle stable data of status quo, ya know? If it wasn't for my understanding PR is a matter of exposing reality in order to entice Interest-either in sympathy or antipathy, the reality of an expanding SPO may not have expanded as it is presently.

Indeed, good manners are also affective, and they definitely work for diplomats. And there is definitely a right time for diplomacy. But in a war zone that time generally follows the necessity level stratagems turning the tides of war.

In a wog world of chameleon sycophants playing follow the leader, demagogic pied pipers have overwhelmed low-toned slave publics with non-sense! Those merchants of chaos rule chameleon slaves by supplanting logic. Alas, the barbarous hero breaks that black enchantment by daring to expose the obvious supplantation of individuals herded into a degraded matrix of group think.

Imagine the theta force required to act the fool promoting interest through success de scandal-life after life! Yes, the success story here is simply still being mindful of my life purpose to challenge status quo per the theta-mest theory. In this campaign as in many others, I've sparked the interest of many amnesiacs stupidly wearing many hats-instigating their inherent sense of responsibility. Unconventional as it may seem, sycophant slaves need help understanding the ennobling Price of Freedom. ARC=KRC!!!
