

THE TECHNOLOGY OF STUDY

FINAL ESSAY #26

STUDENTS NAME:

WILLIAM GOEHLER.

DATE

13 APRIL 2019

MULE CREEK STATE PRISON

It's sometimes difficult to find someone willing to play along with academic purpose of religious study, but it's such a pleasure to stimulate their sense of Reason when they discover Logic's simplicity.

I've been applying Study Tech since the 80s and have helped many others understand study tech since then. It's made a world of difference in the degree of understanding topics of study, thanks to LRH! And now that VMs offer check sheets to aspiring students in prison, I know for a certainty:

Something Can Be Done About It!

thanks to you!

Be blessed.

SUCCESS STORY

THE DYNAMICS OF EXISTENCE

NAME WILLIAM GOEHLER

DATE 25 JANUARY 2019

In accord with Axioms 81 and 100, I appreciate the prudence in providing me this opportunity to re consider optimum dynamics of existence. Understanding my responsibility within the infinite creation to promote the greatest good postulates toward the greatest number of dynamics actions, is a life saver ! Thank You.

THE COMPONENTS OF UNDERSTANDING

FINAL ESSAY #20

STUDENT NAME

3 DECEMBER 2018

MULE CREEK STATE PRISON

Life is a game consisting of Freedoms, Barriers and Purposes. The Components of Understanding are Affinity, Reality and Communication. Understanding is knowingness of life. And because life is understanding it attempts to understand. When it faces the incomprehensible it feels balked and baffled. To understand all would be to live at the highest level of potential action and ability.

Course Results: The benefit of demonstrating aptitude on paper is that it builds confidence to apply practical Knowledge, Responsibility and Control (ARC = KRC), in my zone of influence. The Supreme Test

COMMUNICATION

FINAL ESSAY #35

STUDENT NAME: WILLIAM GOEHLER

DATE: 11 NOVEMBER 2019

MULE CREEK STATE PRISON

This life has been rife with misunderstood communication, before I learned the communication formula (cause, distance, effect with intention, attention and duplication with understanding)

Now, with better understanding, I am far less agitated by stupidity and its corresponding problems. The TRs have helped me experience the practicality of simply Being There and Communicating~~persistently. Now, even the problems are understood and can be handled accordingly. Thank you for this study material I can apply in life.

ASSISTS FOR ILLNESSES AND INJURIES

How I personally benefited from taking this course is simply by seeing what I think~expressed. We are as alive as we are able to communicate. Being in ARC with this commonsense technology and demonstrating understanding of its application permits me to restore that much more sanity in my zone of influence.

For instance, pointing out that this check sheet has determined: "We often publish the Success Stories from the Course Results Essay", it seems to me a matter of sanity to point out possible problems with the Arbitrary requirement I've been imposing upon students who don't understand why its necessary to attach a separate "Success Story" after finishing the check sheet.

For the sake of students self-determinism, as well as the greatest success of this check sheet game restoring responsibility to prisoners learning this material, I must ask VM Terminals in charge of this ministry to re-consider the educational Axioms in The Book of Basics pp 23-25.

#22 Essay:

I have been providing assists in many ways to many people over the years, as indicated in earlier answers. It's funny how quickly thetans get back in PT just by seeing me notice their distress and pointing to some object for them to notice. Their cog~smile is all it takes for me to whisper a Thank You in passing as I keep moving along. Handling drunks on the other hand, who, I've handled before, most often scowl at me when I stop and ask if they want to "play a game" with me? (LOL).

ANSWERS TO DRUGS

This course was a pleasure to do and I'm reminded how much more I can do in public service during this drug epidemic.

This course also made me very mindful of my own case with chronic back pain and makes me all the more determined not to rely upon medications, and rather keep up a low-impact exercise and stretching routine.
