dt I ^{want} ~~want~~ to thank you for the comments you made. I love writing love note and poetry to my jeansite.... Poetry is meant to be shared by all and I'm glad you enjoyed it. I got you're comments to my love 'Rock' you've always been mine. Yes my love I said Oak tree, because you are so much more to me. I also want to thank all the other friends who have followed us and transcribed my words over the years. Stay healthy! ☺

MONDAY

My cellly finally moved he ask me if he could live here for two or three weeks that was in January : So now I've got my cell back to myself once in awhile. I know I'm hard to get along with, I ^{snore} - loudly, I've been told I get up early in the morning to write, letters, my journal, poetry, love notes. I don't talk loud so don't rise your voice at me or you'll find me standing over you : Anyway my friends like me most of the time. I would like to stay single cell but don't get me wrong I've had some long term cellies Rector and I live together for almost 10 years. We shared the same intrest we both did drugs and drink at the time. I'm real easy to get along with when I'm doing drugs, boozes - not so much : I'm told I'm a mean drunk if I do drink until I black out :

Personal Journal

2 I have a ducat for noon today to see if I can get into the MAT program - something for the pain and keep me from chasing drug. Rainy days & Mondays. It rained yesterday - after breakfast I lay down and was out like turning off the lights - cloudy day light. I'm going to lay down now after breakfast can't seem to keep my eyes open

Yesterday my ducat was for Coronavirus -19 Test - a waste of money and time - will taking the test in the morning keep me from catching the virus in the afternoon? I have two more medical ducats today - one to measure and dress this open sore on my back - the other one about the MAT program. Other than this not much going on. I painted most of yesterday - got the Cheetah all but done except for some details. It's a lot easier to paint or write when you don't have a celly standing over your back looking over your shoulder but I've got to have a little solitude - you right maybe it's me that's hard to get along with?

up for about three hours - I took full advantage of it - not sure how many miles I walked but there were a few. I've got my sweat back out and on - see how long this lasts. I got signed up for a drug group yesterday - also got put on a list for the MAT. They said it'll take about 30 to 60 days before someone sees me there - without the MAT there's no need in me taking up space in the group because they don't work for me.

All and all this has been a good week - seen a couple of N.N.'s and a couple of doctors; I'm feeling well no matter how people say I look : (handsome stu) A man can think a lot clearer when he's single celled ~~whole~~ wrote some poetry - wrote a love note - wrote a love letter finished a painting, started another come out at the other end with a smile on my face. Hart's is between 9th & 10th on K so it could have been either one or both and on the same day :). I'm going to stop there for now and get this in the mail. I love a rainy day, I love the smile in your eyes. Every body stay healthy and safe and thank you for the work and for caring. Foods bad :)
