

THE EMOTIONAL TONE SCALE

FINAL ESSAY #19

STUDENT NAME: WILLIAM GOEHLER

DATE: 14 OCTOBER 2019

MULE CREEK STATE PRISON

I've never had much interest in agreeing with a Tone-Two Society, and consequently I've grown accustomed to roller-coaster rides being the Price of Freedom. So, I can easily recognize the condition of others who appear overwhelmed by life...and I play the Fool who provokes low-tone thetans to rise-up ~ while remaining impervious to their inept domination by nullification efforts of group think stratagems.

Yet, sadly, I sometimes grow weary of reviving the dead in this penal colony zone of influence, as these games tend to trap both myself and others within those lower tone regions.

Fortunately, I know the Serenity Prayer by heart now, and rarely take anything too seriously anymore, much less personally! Hubbard's Chart of Human Evaluation permits me to re-cognize Tone Scale attribute along each column ~ and that Wisdom permits me to invoke the anthem of Scientology: "NO WORRIES". The human condition is perfectly understandable ~ and in that Understanding is Freedom TO BE the predictable Individuals we happen TO BE by degree of ARC.

WIN

Having the Serenity ~ to accept the things I cannot change,
 ~ the courage to change the things I can,
 ~ and the wisdom to know the difference.

ETHICS AND CONDITIONS

STUDENT NAME: WILLIAM GOEHLER DATE: 3 DECEMBER 2018

MULE CREEK STATE PRISON

The effort which I applied to this course was its own reward.

As I'd written in my Final Essay; understanding Ethics and Conditions permits one to navigate toward higher survival "conditions of existence", as well as help others do the same.

In this instance, I hope that I've demonstrated this with my other determined revision of answer # 23 invoking the First Dynamic Danger Condition for all involved in this VM check sheet prisoner outreach, in order for us to emerge into the Emergency Condition and change the operating basis according to my Danger Formula Recommendations to spread the Responsibility~~ad infinitum.

L. Ron said: "The essential commodity of an organization is knowledge. And before it is a deliverer of tech, it is a custodian and disseminator of knowledge". So let's provide that Service in this Fourth Dynamic Salvage Campaign inside prisons with VM check sheets.

Scientology is comprised of Training, Processing and Knowledge of which KNOWLEDGE is most preeminent...right? So, let's! ARC=KRC.

Thank you all for all you do.

MARRIAGE

STUDENT NAME WILLIAM GOEHHLER DATE 21 DECEMBER 2018

MULE CREEK STATE PRISON

After two marriages and twenty years in Purgatory, the value of this course would have been much greater before my first marriage license. In fact, I believe a marriage license should require a Marriage Course Certificate prerequisite.

Nevertheless, my purpose for doing this course now was simply to present this data to my adult progeny for consideration~ as well as others monitoring me, Between the Bars.org. And since it is in Giving that we Receive. I'm much richer in Understanding for having spelled it out for them.

Hopefully, I've provided enough Prisoner Contacts over the years for VMs to start this check sheet game with them directly. They are all returning to your neighborhoods someday - in this life or the next! After all, it would be a travesty to miss this opportunity.

DATE 15 APRIL 2019

MULE CREEK STATE PRISON

This course was a wee difficult considering that I've been in prison now for 22 years. But once I looked around and accepted my environment, it presents plenty opportunities to demo this tech upon the inner child of hardened criminals, it was made much easier.

TARGETS AND GOALS

FINAL ESSAY #26

DATE

26 DECEMBER 2019

MULE CREEK STATE PRISON

Success! Plan by Product is key!

This course restored my confidence in the SPO postulate plans developed several years ago. Perseverance was possible because of the plans to build upon.

Fortunately for SPO, VMs noticed how "Maxims of Programing" would benefit our product—and it has, as we continue expanding this salvage campaign rehabilitating exiled prisoners.

This tech of Targets and Goals will be useful in every future endeavor to solve problems in my zone of influence. Thanks to L. Ron – and his VMs who make this material available for us to study to apply.

I'm gratefully able to be responsible.

With a great sense of admiration, I understand how the VM I/C Prisoner Program had manifested and maintains the SPO postulate expansion, applying the Basics of Organizing.

I have personally managed my own affairs along the lines of these Divisions before I did this course and learned the technology of organizing systematically.

But now that I've done this course, and witness the clear example of the VM I/C performance in expanding SPO, I have much more confidence in managing my personal life ambitions as an artist, pioneer, and problem solver... Thanks to LRH
