DIRECT MESSAGE

So now, let's get into it
Welcome to AZANDE Press Zine issue #5
The Direct Message (DM).

Brace yourself because inside you'll discover Liberated Fact's that are about You, yet the information never seems to reach you due to the "Belly Of The Beast effect" of Mass Incarceration, and people just really intentionally depriving You of quality Intel. The AZANDE Press is your new view into vital information that we require that you share within your own social circle.

Did you know that Black-lgbtqi+ Youth participated in an online Teen survey about discrimination? We have it, and you won't believe the findings that set the stage for the state of the struggle.

We also show a report on while the reality that HIV/AIDS numbers are on the decline in "some communities", those numbers are on the rise in the Black community with new case's of reported inflections in our young people. Then we close with Travuda for Prep, ever heard of that? Well now you will, so find somebody to join you on this journey of inquiry, and enjoy the pics of what the hater's everywhere don't want LGBTQI+ to look like.

Yeah, I just said that.

We close this with a Spirituality look into the word Gaytekeeper, explore and enjoy this enlightening journey, then, allow the worthy to engage this issue with You, a Mando gift for the Born Free Gen in your life.

FREEDOM

I'm officially retiring from the Zinester community, and I must say that through Piankhibird, I've met some of the most incredible people on Earth, thanks to @nthony Rayson, the Master Zinester, Lil Sis Verika, Our Teacher, Auntie Linda the Spiritual Rock, DJ Jules, the Supreme Medium, Raiderette the Fixer, and our young visionary King Piankhibird himself.

I've also learned that Freedom can also mean setting others free, as it was draining for me to work with people I admire, on behalf of people that hate and oppress LGBTQI+ prisoners.

As a Gay Black person I'm learning that Black Unity doesn't involve all of us, as selective morality, ignorance of others have forced a new motto, that: "Those who are unwilling to appreciate my company are unworthy of my presence".

Until the abuse, and discrimination of all inner-city youth that identify to some degree as LGBTQI+ Family In Donner, Carson, and Bager Sections at San Quentin Prison STOPS, including the beatings and forced re-Housing to Alpine Section under protective custody status, and most importantly, being spit on, having human urin and feces tossed on them, at the hands of fellow Black Captives, and other, prisoners of all races and subcultural groups, my mission is hereby redirected to the total commitment for the dismantling of all parties
