Booooo COVID-19 VIRUS

They just gave me your BFB comments, today is June 25, and you commented 2 weeks ago, I'm so glad that you are still sending in DVDs, hope you found a way to add subtitles without extra work. Keep them coming I plan to flip them into a Tower here on campus.

Bad news, if you have followed the news, there is now 505 cases of inmate COVID infections, 50 staff, and one inmate death as I write this. They took volunteer test 2 weeks ago, 5 days later, my results are positive, yet, I have zero symptoms, they put a RED colored piece of electrical tape over the doors of each positive case, reminds me of "The Passover", but anyway, the "Mandown" alarm keeps going off as men are falling ill and taken to the hospital, some make it back, while walking very slowly, and some don't make it back.

They stopped all programs, haven't gone to yard in 2 weeks, and the Media Center has stalled as well, ZERO PRIDE Month DVDs, in fact, the same vids have been playing for over 2 weeks, no church, no nothing, they said we got the virus because some idiot sent 15 infected inmates from Chino Prison to SQ, and they infected us, they said a Judge cried while explaining how someone dropped the ball on this

(2)

I've been very aggressive about the Spitting and
tossing water, urine, and feces on my people, to
the point where I laid it all out to A.C.I.L.U
attorneys in a very long letter with EXHIBITS
on the Billie Situation. For whatever reason, the
good news is that All Reception Center inmates have
all been moved out of Badger Section, and the
better news is they are now working on clearing
them out of DONNER Section which is a dream
come true for us here, yet that horror will
go with them to wherever they was transferred to,
and this campus is now turning into total
madness, which means, "wait for it"; 😊, It
means that at least 2,000 more Televisions
are coming into the cells, and 4,000 if each
double bunked cellmate has his own T.V., and
this means that SMS Sessions will be viewed
by even more people than we actually
had in mind here, and it's just a
good situation on so many levels, and
it's happening alot faster than we thought.
The Mexican Mafia's Gang leader is said
to be very upset at me due to the
projected losses in \$, and they are now
investigating a possible threat // security
concern on my life. The upside is that,
now "The Blacks" starting to Congratulate
my efforts, most of them think I'm crazy

But that really translates into them having respect for me standing up to EVERYBODY, even my OWN People for what is RIGHT and Human.

NO Rabbi, I think He's Read my BTB Post titled Julia, Oh yeah, ~~SO~~ Fly Over is a Hell to The 'Noooooo, The LORD Fennesse Fly Over is Perfect, I Hope you get that Handwritten letter by Sr Brown because we might need it in the future if The A.C.L.U. as stout vids, recordings of convo with Rabbi and text message exchange and attack video by my former ex-lead Rapper of EXTENDED VERSION, Yes, I'll send you an email address in the future for those as Exhibits to make this case. I really needed to know if you send The Liberated Facts #5 AT danielroney because it's a Read-A-Long DVD that don't require subtitles so we can supplement all of this good stuff especially while being Black is the "GO-TO" for Media Programming in America Now-a-days, as long as I know it's here on Campus I'm more confident as I stand my ground in meetings with Rule Changers.

(4)

I spent my COVID depression time completing
a New Azande Press Zine, and A WODZ
VENT 3.0 Zine issues, All Paralexpoi Content,
Both Handwritten like how I used to write
my song lyrics as a kid, the visuals are
cool photos, and Youtube video images of
each song so that reader can actually
search, see and hear what's going on
in the Zine, I haven't seen anyone do
this in a zine, and so, I just did
it, twice 😊. So, from the start, I
retired, and had no plan to do these,
they happened organically, I asked for a
few things, and just did it, Pizakhi
hasn't seen them, and I've asked
nobody to make copies of these originals,
Damn, another Alarm just sounded, that's
11 Alarms in 18 hours, they are loud,
very long, and in the key of B^{flat} D minor,
and E major, now most people only hear
one buzzing sound, I can hear all of
them, and it sucks. I hope whoever it
is, does OK, I meditate for us all, You
know, I've just been telling you about
EastBlock, the word is that the Alarms
are going off in many units, please try
not to imagine this environment.

Anyway, these 2 times are my Babies 😊 LMAO,
and in spite of everything that's been going
on, I'm going to stick with my positive
attitude, and smile 😊.

Oh yesh, when I said Rainbow channels,
I meant those channels are on, but
not broadcasting anything but that
rainbow colored looking screensaver,
gotta go, mail pick up.

Super BIG HUG,
and Super
Bored COVID-19

I don't have it, It
has me 😊

Also Check out My last
few post, I've been telling
The Story of The Azande Press Issues
I wrote it in long columns so
it reads like a Book when a
kind soul Transcribes. Pinkhi
wants to podcast this work,
and draw questions from the
Post.

Cool story
Cool visuals

In the event of my
demise from this
virus, please share my
story with my daughter
Daddy's Twin
Parallelgurl 😊

LOVE
BIG HUG

Dear Patients,

June 20, 2020

There is currently a COVID-19 outbreak at San Quentin.

Health care staff are working around the clock to protect you as best we can and to continue to provide needed medical care.

Non-emergent offsite medical visits will be postponed. Please use a sick call slip/7362 to communicate healthcare issues with your care team.

When a housing unit has someone with symptoms of COVID or with a positive test for COVID, then that housing unit goes on QUARANTINE. During that time, health care staff will be rounding in that unit to ask you about COVID symptoms and take your temperature.

It is important you let them take your temperature and tell them if you are having symptoms!

COVID symptoms can include: cough, shortness of breath, difficulty breathing, fever, chills, muscle pain, sore throat, loss of taste/smell.

People who are infected with COVID can sometimes get sick very quickly especially if they have risk factors such as certain chronic medical conditions or are over 65.

ALERT HEALTHCARE STAFF IF YOU FEEL SICK!!

We will continue to conduct testing across the institution. If you are offered a COVID test, please accept.

IF you are sick, you will be MEDICALLY ISOLATED. If you have a cellie, they will be confined to quarters.

There are things YOU can do to protect yourself. PLEASE DO THEM!

Wear your face cover over your mouth and nose.

Cough into your elbow instead of your hand.

Wash your hands with soap and water frequently.

Do not touch your face with unwashed hands.

Clean surfaces in your cell frequently. Cellblock64 is an effective disinfectant.

Social Distancing- try to keep 6 feet away from anyone who isn't your cellie.

Limit your interactions with others as best you can.

Know that your doctors are working very closely with the Marin County Public Health Department, Outbreak experts and Infectious Disease doctors in our efforts to keep you healthy.

This is a stressful time for all people at the institution. Please continue to be kind and patient with each other. We are all in this together.

Sincerely,

San Quentin Medical Providers

Looks like we are new
