

The Protest of a life time  
but not the violence of a  
Life time

First of all I want to address the violence that has been happening over the fourth of July weekend and during the peaceful protest. Oh the police is being violent. How do we solving the problem by turning to violence. How is you going to solve any one of you are doing the same exact thing to the police or innocent citizen. Why all the anarchy? Is it really worth it or making matters worst. Food for thought

On the positive side these protest has been a history changed. To see Diversity of race out their marching has changed our history. The importance of this having talks about racism, policing and how our local government is ruled by their officials. As well the confederate monument coming down. The first thing I want to talk about racism and policing. I can testify the racism in the judicial system is a huge problem. May, 1997 Myself, husband and brother felt the heat of racial injustice. Everybody in our criminal case was white. We was dragged to trial like a bunch of animals been locked in a cage for a murder we dont know what happened till this day. We was not offered a Pleabargain. At trial we was allowed to pick our jury or nothing. We end up with all white jury with one black lady. They tampered with the jury, covered up important information from the jury that could have caused the case to be thrown out. During the all this our Detective was

being investigated for the homicide of his wife was never removed from the case. While out on bond the GBI knew the case was weak. He was determined to plant something on my husband. So he did by using my husband friend to do it. The same GBI try to wreck us in everything. We was being followed like we was animals need to be obtain. When I receive my transcript I notice falsified records and lies document. I've contacted everybody could about this case trying to help me and my husband. Cause my brother won his appeal. Which was under handed stuff involve. Because I know so much about the things they done in our case they are trying to keep me in Georgia Prison.

Georgia has a lot inmates because a lot of the cases was racial political and no proper investigation involved. The saddest thing if you look at Bainbridge, GA DeKalb County judicial system it's the poorest judgment and prejudice place I've ever seen. This is small town. ~~been~~ I have a sentence modification that's been since June 27 2019. My son has been calling the mayor about how these courts are ran. Mind you this was before cov-19. They are not allowing African American to practice post conviction they want even come to get you for court. The mayor Dad was <sup>the</sup> mayor. Now the son is Mayor. ~~and~~ the torch pass on to the next white person. Everyone just in leadership is predominantly white. A few black may be in the pod not much. all our judges are white. All DA white. ~~mayor~~ All public defenders white. It is stronghold on judicial system the whites run it. A lot of them are very prejudice against the blacks.

So I understand how our local Police, Sheriff, State Troopers, Courts, jail and local prisons. Especially these small towns. Where the whites feel like it's their town. When the cops stop you. You only see white cops no blacks. Or when you find yourself at the mercy of the courts.

Majority of the cases when it's involving black defendants. We are assigned all white CJBZ, Detective, judges, lawyers in Georgia. Bainbridge. Then when you dragged into a trial without any choice because your black and poor not even offered a plea bargain. Then you spend decades in a prison for something you didn't do. Lastly you were tried in two days or found guilty and sentence life in prison.

For some people lives wasn't taken by a life sentence or Death penalty. They lives was taken ultimately as a result of death by the police. Remember these people Eric Garner, George Floyd, Breonna Taylor, <sup>goes</sup> Richard Brooks, Ahmaud Arbery etc. the list goes on and on. I feel bad for their families. Losing a family member or child is not easy. I often hear people say it was their time to go. I believe that if was a premature death it wasn't there time to leave this earth. Someone else chose it for them which is wrong. I personally have problems with people who know they are wrong cannot admit they're wrong because I am the law or I am the one in charge.

Let's do some headlines:
