

Mental health case

North Carolina man exonerated by panel in 1979 down under

wrongful convicted case

G.M spent more than two decades behind bars for a murder he didn't commit is a free man. The Philadelphia District attorney's office agreed with M.'s defense team that his prosecution was flawed and his conviction shouldn't stand.

Clearly, it's a big problem with local judicial system because people work within has a character of law and no integrity. While the citizen has their flaws as well. Some people are breaking the law but so is the law enforcement.

Example P. Police commissioner resigned Tuesday amid allegations that members of his department engaged in sexual harassment and racial and gender discrimination against two women serving in the ranks.

All this is part of the flaw in the local judicial system. Unfortunately this has been the norm for too long. The local police, Sheriff, Courts, State trooper, Clerks, Judges, DA etc. living on reports, discoveries and transcript. Submitting illegal evidence to the case. The way things are run in a county should be closely watch by that county commissioner and mayor. When people report things about happen in the courts and that city. It's their job to see what's going on and correct the issue.

Majority of the times they do their jobs. Especially if you are African American. nothing happens because everyone involved in the situation is white including the mayor and county commissioner. You are in a no win situation.

That is the way I feel about everyone who died as a result of police ~~fatal~~ fatality. They was in a no win situation. My heart bleeds because God didn't create us to be the way people is choosing to be racist or treat people as they don't matter.

I dislike that good cops is getting ~~mess~~ ^{mess} up because of the bad cops in their Department. When one or two mess up they begin to look at the whole department. Because of the bad apples in the bunch. It cause ~~scrutin~~ Scrutiny on everyone. Where each man is for himself.

The heart of people has become careless and cold. Believe it hurts when you know people are like that. really it brings tears to my eyes. I know its people like that in this world. How can you live with your self knowing you did somebody wrong in the count of law or kill another human being. when you promise to protect and serve our communities fairly.

The other kind of racism that hurts is Racism. When we are racist against your own race.

let's just define what is ~~racism~~ racial i. e., relating to or characteristic of race or races. arising from or based on differences among human racial groups: racial discrimination. In every race there is some type of racial discrimination going on. Whether it's Blacks and whites, Black and Black, Chinese and Japanese, Mexican and Latino so many people are hateful, degrading and treacherous to their own race. When they should understand you more so.

But when you stand for truth. That is when you become trash to your own people. They say and do hateful things to you and ~~bring~~ you tries to bring you down. A lot of us is slaves to our own race. Because when you can't treat others the way you want to be treated. Then you are oppressing people.

You probably say what is oppression? The act of oppressing arbitrary arbitrary and cruel ~~ever~~ exercise of power. The state of being oppressed. Something that oppresses a feeling of being heavily weighed down by mind and body.

* I have one more word oppress it very important * to know what this means. To keep down by severe and unjust use of force or authority. To so weigh heavily on. Poverty oppresses the spirit, to overwhelm or crush. To press against.

you see my people we have been oppressed so long by police, judges, courts, our own race, mayor and leadership.

Here is another nugget that is very important. A fair judge. God will judge the wicked who have unfairly treated others psalm 82:3 Defend the cause of the weak and father less maintain the rights of the poor and oppressed. There is so many people in the world oppressing people then treating them cruel or unjust because they think nobody knows. My spirit keep taking me back to the judges who has sentence people to crimes that they know the defendant didn't do but your pride, racism and political ~~has~~ reason wouldn't let you say you was wrong.

My prayers is that the word deal with your heart and won't let you sleep until you get it right. God judges human judges. The integrity of the justice system in a nation provides a clear indication of the health of that society.

As is the case with all leadership, judges etc. derive their authority ultimately from God and will give an account to God for their verdicts. All this hatred, racism, bitterness, pride and selfishness.

On judgment day if you haven't repented and changed your way of thinking including citizens. We all will have to give account for every thing we do and say.

I feel that the lord is revealing what
secrets are in the people hearts for us to
deal with one that's been talked about
on the surface. But now we are dealing
with them one head on because we as
people are tired of being oppressed by
others.

Then you have those that are somewhere
in a corner. I wish they would shut their
mouths until something happens to them or their
family. My desire is for everyone to be
treated fairly. The crime rates to go down
all over the United States. Gay activities
will be no more. We be that brother hood
a sister hood that they need us those community
without the robbing, shedding innocent blood, killing
selling drugs or even the block or in division
with others.

I wish every one would call it truce. I
know some people what heek is true. ~~True~~
~~True~~ Truce means To end or be ended with
truce, pledge - suspension of hostilities by
agreement of the opposing sides.

My desire people would stop robbing the
stores, people homes, killing people cause they
in a bad mood, cause they are gay, thinking
their mate cheating etc.

Most Definitely our world can be a loving,
health, caring and safer place to live. It's up
to us. The power is with us to do what is

It is time to be emancipated for ~~no~~ real
which means to be free from bondage,
oppression or restraint and liberated
that is why the peaceful protest of a
lifetime of change that need to take place
immediately
