

## The Common Brass

Two Thistle in a basket

I was concentrating on a byline for this writing, well I just sat for a minute thinking ~~about~~ to my, my, my the crook and the treacherous has dealt a low down dirty deck of cards again. Is this how America operate once again. The privilege so undeserving of punishment for their crimes but you got people who has underline condition that are in prison and jails all over United States that are innocent or had served their time for the crime they commit cannot even get once chance to step their feet on free world soil. But here our President Trump commutes Roger Stone who was convicted of 7 felonies including lying to Congress and connected to Donald Trump, Roger Stone the do boy. The rich and famous can do what they want. People in poverty that was ~~be~~ misrepresent possibly by the good ole boys gets to contrive stay in prison for a crime they didn't commit and the other people that guilty that has done their has to stay in prison. While this man Roger Stone never enter a prison. Is that equal justice?

# Daca

What does Trump mean signing Executive order road to citizenship. Law tried of the redone it process. A lot of these Dacas is in the medical field fighting helping with COV-19 patients. Their should not be no road to citizenship. It should change to citizenship. These 750,000 have went above and beyond to be a citizen of U.S. Why keep poking at these people who deserve better.

Law tried with them tho don't make any sense Congress and Senate it's not the president job to determine this really has cross the line. The bottom line just give these people citizenship and leave them alone. The problem will be solved.
