## "" THE DEVIL'S

DECEPTION: ""

Construct .

Deconstructing , The ascriptive

of the Wanna-be Machiavellians

Tagline: "" Knowing the ' Proper '. Tools to decipher DOUBLESPEAK. ".

[ caveat : Doublespeak- is the opposite of straight forward language. It tries to miscommunicate, dis\ defuse and trick the listener or audience. It tries to conceal the truth and to confuse with disinformation. Or use Red herring & Ad Hominems .

The word is related etymologically to " News speak " . a neologism / term coined by George Orwell in his popular novel

" 1984 ". Which was his chilling description of the cosmology ( world : engineered by those in and of power ) he had written about or , possibly anticipated would one day become the reality of our nonce. NEWS SPEAK was used to shift the meaning for words & concepts in order to confuse the citizenry. ]

Preamble : "" Do you look at things according to the outward appearance ??? (( 2nd Corinthians CH.10: Ver. 7. ))

"" Know wonder ! For Satan himself TRANSFORMS himself in to an Angel of Light "" . ((2 Corinth. CH.11: V.14)

1.) This discourse aims to expose the verisimilitude as Curia within Videre Discapere. And to educate those who seek knosis , wisdom and striving to have understanding, so that one can better themselves and grow.

2.) The universal principles mentioned above should mean , that a student of our cosmology can learn from any other body of knowledge anywhere and among anybody . and the Crucible of that learning can only be certified proofed , when the student

Now the teacher , take that universal knowledge and applicably use it to advance the Videre.

3.) With that frame of reference in mind and laid out in para. (2) above, let's proceed to DECONSTRUCT the ascriptive constructions of the verisimilitude wannabe curia Machiavellians among us. And they know who they are, and you should know who they are. If you don't, well that's what this track aims to achieve. So let's lay out the primer of what is an "" ascriptive Construct. "".

4.) Those of us who studied the dialectics of the commonsense approaches of life. And those who have studied with me and Learned the Dav-Hoov polemics & forensic dialectics; should know that the philosophical science of logic has its useful tools for one to arrive at the truth of a matter. That the concept of "construction and deconstruction, in the description of the elect.

5.) For the Tyro's among us, an ' ascriptive construct or construction ' is something that is connoted or not. Depending on the constructor's intent. For example, Let it be that, ' cubic zirconian tell lenney & squeezy an ascriptive construction such as : "" I'm of the Curia and by negation of that fact, only the Pontiff. Or other Curia do I answer. ""

6.) To understanding this, we must 'deconstruct' this according to the applicable philosophy, textually related to the language being used. As the first required approach.

7.) One of the teachers that I disciple, showed & taught us about ascriptive constructs by using the following formula.

' that the principal presence of "X" in the "Y" does not establish that "X" is equal to " Y " and that " X" is an attribute of Curia.

this may seem confusing right now because a reference point has not been established to what "X". & " Y". Symbolize.

Let's further deconstruct by using this syllogism.

8.) cubic zirconian claims premise (A) " I am the only one in this topography with a Videre benison "; this is the "X", in the formula.

9.) Premise: (B) " I am the only one in this topography with a warrant of letters "; this is the "Y", in the formula.

10.) Conclusion: " therefore, I am this topography "; ( metonymic, and reversed ' paper town ' ) ™©®Π~

---

11.) The construct : " iam this topography " is to be understood as an metonymy.

12.) To further deconstruct, let's use an equal ascriptive construction to shine light on what is meant by, " iam this topography ".

13.) There are many similar examples in which metonymic ascriptive constructs/ constructions have been used that you may have heard and familiar with but not viewed in this analytical prism. Like , it is said of people with power and Influence's in our society that , ' HIS FATHOMS ' are long. !!! . Obviously no one would take this literally to mean his reach is literally ( outstretched arms extended for fathom's ) , rather it is understood to be figurative & metonymic and symbolic/symbolism.

14.)The problem with these ascriptive constructs, is people use them deceptively, making them into ' ambiguous ambitious expansions', that allow Dis- &- Misinformation to be deduced to the , and by the unlearned and the disenfranchised/disenchanted Listener. And this is exactly what has , and is happening in our nonce.

15.) A warrant in letters and benison in Videre , does not automatically attribute one to be without bounds and without measure in the topography in which her / his allege warrant is authentic and benisonified to . so she or he is not one with fathoms of say , of statewide breath . Rather, one is limited to do and conduct research, study , work and teach to one loci , and nothing more. They are not the badger .

16.) Another ascriptive construction is : " Mecca or the land is in her hands, ". Or more urban one , " the city is in his hands " ;

" the city is in the hands of ndugu ". The metonymic use of city does not extend to the sum of the whole state of Wisconsin.

So one can not say by ' default ' , because iam the only one in this topography with a warrant of letters and benison in Videre

for the paper town or a city. And because no one else with in the state limits has such , iam therefore automatic " expansive ".

and without measure or bounds ,state side. Meaning my warrant in letters and benison in Videre can extend to all of the state because none exist else where. Such negation is not so , with out further benisonfication and greater warrants with that specific authentication .

16.) The use and megalomaniacalizing of warrants and benisons in this fashion , is called " THE DEVIL'S DECEPTION ".

As the Preamble warned , " For, no wonder ! Satan... Transform himself into an angel of light ". or, in this case , a city street sweeper -keeper has appointed himself Governor of wisconsin or the like. Or using zeitgeist,

" we can buy Greenland ". ( so say , Ch-trump , ) even though its not fore sale.

17.) In the lesson at bar , the verisimilitude is more dissimulating because there is also the Curia Tropism to be disabused.

It's not clear if this is another or part of the same negative negation ascriptive construct . as not all warrants the same and neither are all benisons. And benisons and a warrant can be one in the same or two separate things . we can not find any warrant or benison note worthy to

entertain either. And as such all must be refuted before authentication, as what they are , ' " " Machiavellian machinations of deceptcon value."

18.) No chains of transmission has been provided or independently proofed and confirmed to accept these suspect words.

As the sources are treacherous at best and highly unreliable; liars and disuniting . in all things proper.

19.) In closing, the English word Devil is derivative of the Greek ' Diabolos' which mean : " Slanderous ". This is most appropriate, as when confronted by the truth or when exposed for the liars they are, ,the verisimilitudes will and have always Resulted to what they do best , ad hominem & slanderous red herrings .

PARTING WISDOM: "" COWARDS DO NOT COUNT IN BATTLE. THEY ARE THERE BUT NOT INIT ".

---

—

"" THE COWARD MUST ABANDON HIS DIGNITY BEFORE  
LEAVING THE BATTLEFIELD .  
OR SOME NEVER COME WITH IT.

---

ALL THIS WORLDS FLEETING SHOW , FOR MAN'S ILLUSION  
GIVEN".

>Longfellow's , psalm of life.

---

Remember that sometimes those on the battlefield w/us don't count . but they must always be watched and studied .  
Never, unmindful of the transient of their nature. Sometimes we know , and sometimes we don't. But the one thing we can know is this truth and lesson right here. In retrospective and projections. Which shall guide into all future wars & battles.

---

"" UPON THE ALTER OF GOD , I PLEDGE UNDYING HOSTILITY,  
UPON ANYONE , GOVERNMENT OR STATE.

THAT PLACES RESTRICTIONS OR RESTRAINT , UPON THE MINDS  
OF THE PEOPLE. ...

>>>the Jefferson monument.

[ ™©®™~: paper town : A paper town refers to fake town on a map created by cartographers to deter copy right infringement.

\_\_\_\_\_ fictitious entries on maps also be called phantom settlements , trap streets , cartographers follies or other names. They are all intended to serve at exposing those who copy another cartographers' work with out permission.

The frauds don't know that the paper town is entered purposely and is fake.

This track contain certain neologism created by the writer , used for the first time here. So a poetic licence is at play.

Until this Pen Weeps Again, Stay Safe and Stay Loved. 7/12/2020.
