" LOOK AT THAT CRAZY

NIGGER " :

Kanye West & Mainstream media, the continuum of
black stereotypes .

Tagline: What are the images saying of Mr. Yeeze, when the full length of his condition is half
ass reported. ?

Is black mental health in America viewed differently. ??? Are the media
perpetuating the Jim crow

Stereotype of ' the crazy nigger '. ???, rather intended or not, is that the image,
and is that what most

Whites think when they see him carrying on in this fashion???

[DISCLAIMER: THE USE OF THE PEJORATIVE NIGGER IN THIS ARTICLE IS
NECESSATED BY THE DRAMATIC EFFECTS OF

THE SEVERITY OF THE ISSUES, AND TO CONVEY THE SOCIETAL IMPACT
THAT IS AIMED

1.) I can not speak for all media accounts of kanye, however, the ones I have seen, from TMZ ,
Inside Edition , to the evening news and the morning news shows. They all speak of this as
one of his bipolar meltdowns, yet luxuriate in his odd antics.

2.) No one is suggesting in this article that they should censor him. Not their job and ethical
duty. However, they do have a responsibility to strive for more accuracy then " good copy ";

3.) But this is not the first or even Fourth time they have exploited ye's head injury. From
the first time that it was notable to me, going back to the MTV or was it the Grammys when he
jumped up on the stage with Taylor Swift I knew then his behavior was consistent with people
around me whom have been diagnosed as having bipolar or manic depression .

4.) Upon further thought, and watching him act out , i became aware of my own prejudgements
of him and how this was not just him acting out . that this behaviour was residual of the car

crash and head injury and coma He had back in the 90s when he first came on the scenery. I'm not his doctor or any doctor to make a certified pronouncement, but its clear to those who know him that this is not just bipolar or, a crazy nigga, as Some would proclaim him. Nodoubt ego, and bipolar are now part of it, even the celebrity factor.

5.) Research has shown that people who had suffered tramauactic brain injuries in the past , later in life have similarity affects of those now recognized as the NFL head injury. Instead of the media and other specialist talking about this being a bipolar event,why have not none even fought to consider that this behaviour could be connected to the past car crash brain injury with delayed effect/ affects. Why not investigatie this theory before running wild with this other unclear diagnosis. Yes, we know Kim and even he came out and said he has bipolar. Know one is denying that he now exhibit such characteristic's ;

6.) If I was his FAM, I would not be content with the what Hollywood doctors have diagnosed him with. We know that the lost of ones mother , especially as the only child, would be traumatizing. And that that would be a stage of depression.

7.) The same media that once appalled his bizarre Belshazzar-sques artis, are now silent on what should be an opportunity to help him and educate the public, which would be his follower's. This most recent ignorant out burst about his daughter could be no more illustrious of how careless they are to the truth, and of the damage this foolish good copy will have on this young child.

8.) I started this article off with the propositions that black psychology and white psychology are viewed differently. The answer is yes. Not only by white people, whom I suspect would reflectively deny that they do. It don't change the truth though. But black people have ,not only out of survival, developed their own corps of American psychology that is not recognized by the majority. But is the unbiased, unracized version of the African-American experience's. This black psychology usely is covered and pushed to the side by the majority, into the academic sections of African-American culture studies, or Afrocentricity .

But it those exist. The tragedy is that because it s not recognized by the mainstream American psychology community, it is not even know or recognized in the black community as well. But this is not unique, fore we don't care for the science at all.

9.) Coming from the slave plantation experiences, the Jim crow, kLuE kIUx kIAn and police terrorism experiences, black folks really never had the luxury to fuss over their depprissions and traumas. Who should we report them to or get treatment from ??? The same mofo who socially engineering the condition's . that notion is " INSANE ".

The

i0.) The black experiences and continuous war against racism in this country, make our psychology fact specific. No other can in this country understand it. The same with the indigenous people of the american experiences.

11.) World psychology and American psychology is a flawed, and incomplete science. The westernized / European centric monopoly on American psychology is what make it a rejected science by most other groups in this country as being , " white people shit" as you will hear in any hood or prison. Or the hiphop community. This is the reason why people with serious psychological issues in these other than white communities will never be treated nor go to a psychologists outside it being court ordered or in prison. It does also factor in that white people abuse or over use the term depression and the psychological experience, that's from the black experience p.o.v. ; we look at New York and California as examples of this perception. Meaning, they cry over shit or experiences that only white people or wealthy people cry and run to psychologists about.

Even poor whites have this p.o.v..of psychology being a rich person luxury. Woody Allen made a successful movie production company showcasing these experiences and stereotypes.

12.) To this point, kanye behavior has not been a threat to anyone but him self. Because and only because , those truly offended by the ignorant outbursts coming out his mouth, don't give a damn about rather or not he has bipolar. Quite a few would consider his behavior to be standard hood type of behavior and hold him accountable accordingly. And that is the serious danger to him. Because he is making these statements to impress an uneducated and unsophisticated class of people in regards to the context at hand, they will not be as so forgiving. ". He sells this behaviour as hood boss move making.

13.) The streets ", which has its own psychology/ philosophy that Embraces and rejects on the same level as a speck of dust has rest in the wind, is relative to the person and to the persons understanding, and grooming. For not all gangsters come cut from the same cloth. And in these days and times , the silk of the highest quality is no longer a requirment. We saw this with the TMZ , " slavery was a choice idiocy ".

14.) It is the standard black experience and response to mainstream psychology for his view the medication as stealing his soul/ creativity, and the allegations that Kim and them trying to 51/50 him is Met with they are unjustly trying to commit him.

The crazy nigger commitment history in this country is a real fear in the black experience.

15.) What this brother need is for someone who understands the black experiences, and has mastered western/ European psychology and African-American psychology, to come hollar. The fact that Dave champelle flow out to hollar at him is a fruitful thing, as the he too has experienced the " That nigger then gone crazy " experience that is subliminally reported in the style the mainstream media report on the black psychological experiences.

16.) The thing that make this behaviour more dangerous , is that at times the clownish antics seem more Machiavellian publicity stunts then maniac episodal events. And because the issues he is using to play these games are serious political and historical hotbitten topical matters , one can easy assume that he is even using his head injury to avoid accountability for

the stupidity he is displaying. Like the most recent dumb shit about Harriet Tubman risked her life at least a hundred times to turn black people over to other white people to work as sharecroppers and indentured servitude ; not only is that shit factually incorrect, but it is false and misleading, which one dumb mofo latched on to it and tried to claim it has creed .(see Jason on TMZ).

17.) Contrary to those two dumdbass fools, (ye & TMZ Jason,), Harriet Tubman was one of the best generals and antislavery revolutionaries the world produced. This sister created the most sophisticated intelligence network that ever existed during the civil war period. She personally took war plan's that her reconnaissance network fed her on general Lee's plans back to Abraham Lincoln that help win the war.

18.) Most of the slaves she help free lived free, had their own land in places out side the united states, in Canada. And with the indigenous people in Freeland. She opposed Abraham Lincoln trying to send black folks to Liberia without them agreeing to go. Before the civil war, she told John brown to hold off on the Harper's ferry war seizure because they were not ready. So contrary to the dumbass," slavery was a choice because they dd not always fight and fight to the death" . statement, Here is a sister that brought the fight to bear on more fronts then one, and you can cannot educate your self to report the truth. How ignorant you are, and how much a buffoon you truly are. Obama had it right when he called you a jackass.

19.) At some point , if you think you will continue to disrespect the people at the expense of your games and to manipulate the media for you're personal vanity and weakass sanity. Know this, George Jackson students still exist and will not continue to give you the Grace's that you find it hard to give to your daughter, which you just dont realize , saved your life. Punk.

20.) Since you like to draw in the Joules , juzs , jewelz of the TEHUTI (thoth, Mercury, Hermes,) let the silence & secrecy of Hephaestus place you on notice, and see the cypher in :

"" They know not. , neither will they understand; they walk on in the darkness: all foundations of the lower cosmology are out of course ... They think they are gods. ... But they shall perish , die like men, and fall like weak prince's gone astray... 1 Chronicles, 82: 4-7;.

21.) Those that claim to love him and friends to him, need to intervene now before this shit get to far out of hand, as the media continue to give him the platform make an ass of him self, he will continue to do so, until they stop and then he will want to kill himself, because he has lost that self feeding ego source. Or far worst, he say some shit that will cause some one less stable then him to come after him. Which is also kind of interesting that he has kept his mouth shut on the subjects that the Ch-trump supporters will find offensive.

22.) Ain't nothing genius about using the struggles and pain, of the people, to create controversy to sell music. What that shows to the real listener of music, is you not only don't believe in your craft and production, but it ain't shit know way that you can not allow the product to sell it self, and that your brand ain't shit either, that you have to result to such low standards to sell the product. This tell me you are a fake mofo and a coward that you would psychologically harm your daughter to create controversy so that the Megrh you are dropping can get the same numbers as a rainbow vermin. Yet you would wonder why them cats back in the land stick you ho's up. This definitely would inspired me and that's not my go and never was, but I would consider the notion to chumps like you, akon and that fake everything bitch Nicki minaj, and that rat.

23.) Keep it up, it would be a waste to have named your child Chicago, because the go will disown you. She will be the closest to Chi-Town you will ever get. you should go back and listen to, "" Never let you down ", & " amazing ". And rediscover your self.

Stop hurting your daughter punk.
