Reply ID: HIR No people are ~~not~~ not taking COVID-19 serious until it happens to them before I came back to Georgia. I was staying in New Jersey and had family in New York. I use to go to house parties all the time. If I was home now due COVID-19 I would not even think about a large gathering. It's like one I am embarrassed to know that New Jersey people would do that. Second some people common sense has went out the window. Just wild as if they can't live without partying. Third people just don't care about anything until it happens to them or someone close to them. Then want everyone to feel sorrow absolutely not when you cause this to happen. Look for more post on the way. Yes I am ready for it to end so we can get back to the normal life. Make sure you follow the guideline for COVID-19 to stay safe
