

## NO PLACE TO LAND (3)

After 21 days, Prison Officials allowed for all inmates who tested positive for COVID-19 virus, and who are recovered, and those who continue to test negative, to go out to the prisons exercise yards together.

There is an obvious attempt by all inmates to avoid talking about the deaths, the hospitalized very ill, and alterations and cancellations of all programs, as it is simply valuable to see each other again, feel the Sun, and locate laughter.

As Parafexboi and de'Kid walk towards the exercise yard, de'Kid is the first to notice a fast approaching SWervo, beaming with a snite.
