

Horrific or not

Doug Collins' criminal Defense attorney who got convicted
felony (lighter sentences)

I personally don't like the campaign Commercial about Doug Collins. They are ~~degrad~~ degrading and bring defamation to his character. Especially the commercial with the pigs. Who does this? Just to get into a political position. Some political leaders are just dirty.

Doug Collins is a Pastor. He allows the Lord to speak to him about what to do in his position. The Holy Spirit leads and guide Christian. But when you ~~to~~ live in the flesh, your conscious is numb, you do things of the world. Like judge people wrongly and saying what they deserve. But when you a woman or man of God, you are criminal Defense attorney, you deal with these cases in the court room. God will let you know who to fight for or who's guilty. Just because you charged with rape, kidnapping, murder or child molestation means that you are guilty. Cause in the State of Georgia a lot of people are convicted off what we called circumstantial evidence. The hearsay.

Majority of the case there was not a proper investigation, no DNA, witnesses lying, no second expert witness, even the police, Detective lies, no proper search warrant. Growing up in 80's my stepdad was molesting me from 9 to 13. My mom was a hospice private duty nurse. So she was gone 12 hours. The woman had no clue. But in this era if my dad was charged with molestation. Mom would have been charged as if she knew what was going on or should have known.

These are women who are in prison because their child died. Don't have a clue what happen. Some even took their children to the hospital or at work when it happened.

So Doug Collins let the lead use him and went with no conscious. Unlike many of the other attorneys (read they go with the State get people convicted whether they get guilty or not. Whether they deserve that much time or not. The word fairness is out the window when it comes to criminal justice system. All they see is \$ \$ how much they can gain off housing inmates. Leave Doug Collins alone
