18 years ago, the fight to bring an end to the beatings, spit assaults, exercise yard and chow hall attacks, forced rehousing to protective custody of SQSP Incarcerated Americans that identified to some degree as LGBTQI+ escalated to being doused with human urine and feces and dirty condoms at the hands of fellow inmates that self-identify as active gangmembers and other inner-prison subcultural groups.

Circa 2016, Campus Jewish Rabbi Paul Shleffar, and American Indian Chaplain Hector Frank responded to the call for the need to start the First SQSP/Condemned LGBTQI+ Spirituality Group.

Then a true set of Heros visited the Group in the official capacity of associate Warden T. Allen, and Public Relations Officer S. Robinson who both made sure that the function of the new group and programming generated by the group would be stablized with engaged integrity; allow me to paraphrase a verse, For God has not given us the spirit of fear, but the spirit of power, love, and a Sound Mind.

The primary lesson here for those involved with prison reform is, to reform prisoners, one must engage the two primary valued perspectives in incarceration situations across the board;

#1. Respect

#2. Disrespect

As we almost always focus our program designs to reform disrespect, we forget to provide reform programs a direct connection to what prisoners do respect.

## The Sound Mind Streamer

The Sound Mind Streamer New Media Broadcast is designed for the direct connections of same-sex activities that existed precolonial era not just in Africa, but also to the history and culture of all prison subcultural groups.

Allowing for history to speak for itself, and providing all inmates equal access to the liberation of their own facts not only begins a new conversation but a mirror is the most powerful tool for the individual reform of each person.

The direction towards non-violence begins with quality information that is generated from the most respected source in prison subculture.

## History

The LGBTQAI+ Movement in America is an amazing lesson, however, the new generation are not provided access to information about the existence of same-sex presence in a historical Mexico, Russia, Ireland, Spain, Africa, India, Islam, Christianity, Sports, Dance, hip hop, and everywhere there is a MIRROR.

SMS is the change, because the broadcast provides a greater interest to engage LGBTQAI+ groups, programs, and the freedom for one to change his mind about disrespectful conduct towards an irrefutable mirror.

This work is dedicated to 'Karl-Maria Kertbeny' that coined the words Homosexual, and Heterosexual for a specific reason that some how become lost and removed from LGBTQAI+ labels today. Silence gives consent

da'Vent segments of SMS programming was created to set the tone for the urban perspective presence of our culture.

Primarily made up of instrumental type beats that directly reflect inner city culture, in my past life, I'm known for.

As the former lead singer songwriter and DJ for EXTENDED VERSION, a 1990's Hip Hop R&B Dance crew, it was obvious that nobody would ever guess that one of us in our crew was gay, or that more of us associated with Hip Hop society identified as same sex loving people, and the music and dance allowed all of us to be simply ourselves

With the program we call da'Vent, we did our best to make sure that writers, rappers, dancers, artist and creative urban perspective innovators had the soundtrack to our reality to be present and accessible for us to return to the focus of our better selves.

In spite of the homophobia in life, urban youth have always created safe spaces for skaters, and kids in foster care, and LGBTQAI+ youth and kids that just want to engage their own music without every song having lyrics that are antithetical to our LGBTQAI+ nature.

Beats don't judge, and da'Vent, or the 'WIRE, or Cellblock, TANK, dayroom, and Yard, now Prison MEDIA Center Channel provides for a Safe environment for creative freedom, and peace.

When I was a kid I wrote a song titled "U." as an adult I recorded a tracer because I wanted my

Parallaxboi

family crew "Perfect Timing" to record the song, and have the love of my life flow a verse on it, never had the chance to drop his verse so i left the track as a rough draft I dedicated this song to SMS because it was the first song I ever wrote about the future love of my life. Enjoy!

I recently had an opportunity to see what my crew did to that video, and heard my tracer track from my former life, and it reminded me of why SMS is so important for the spiritual better versions of people like me, those who are creators of our own small spaces of freedom to just be.

Finally, a place to land!
