

Supreme Court

Our justice Ruth Badger Ginsburg was a icon to women including mine. Because she fought for women rights under the constitution. She literally was the architect of the legal movement to protection for women under the constitution. Equal pay for women. How is it that Donald Trump keep trying to get people appointed to these offices who do not have women best interest in my mind. Everyone say their a Christian or certain religion. Beliefs are all over the place based with opinion. Our bodies belongs to the lord not politician who wants to tell women what they can do with their bodies. I personally think the appointment of a judge should not happen until the election is over. I am against the appointment of Amy Comey Barrett.

1. She is a threat to the 1973 Roe v. Wade decision legalize abortion nation wide

2. She also criticized the Obama administration method for giving employees of religious affiliated organizations access to birth control without having the institutions to pay for it.

I believe Amy Comey Barrett is not for us women as Ruth Badger Ginsburg was for ~~us~~ us.
