The band member of "Wanted"

Tom Parker: I want to say don't give up. I know your diagnosis is hard and you have chemo and surgery on the way. There is light at the end of the tunnel.

Being young finding out you have a health scare is not easy. Just the other day we find out my sister in law has stage 4 breast cancer. She was already suffering sickle cell. She didn't let sickle cell beat her. I don't believe she is going to give up because she has stage 4 breast cancer you can make it through the help of the Lord. I believe the Lord can heal you if only you believe and don't give up Tom. God Bless you and your family. you are in my prayers
