My COVID-19 Poem (written on 10/28/2020 - the day after I got sick)

COVID-19

The Pandemic is a joke -  
Unless you get COVID-19.

Then you ask:

will I die?  
what are my symptoms?  
how do I treat it?  
where can I get help?

I think I am infected.  
I've been feverish with  
Aches and pains.  
Ever since I was tested  
Yesterday, I've had symptoms.  
Psychosomatic? I think not.  
Because I was sure I was  
Negative - until I got sick.
