Sunday afternoon

Hi bostona,

Great to hear from you. I'm finally completely recovered from COVID-19. I wrote a follow-up blog titled "Life After a COVID-19 Infection" that you may find interesting.

With the vaccines becoming available, soon COVID-19 will just be a bunch of stories about the way things once were - like the antiwar demonstrations of the 1960s, the Great Depression or World War II. I'm looking forward to that day.

Stay safe,

Harlan
