To, tevens,

Happy New Year to my favorite PFLAG, have you heard of that? Well, if not, search it and explore all of the other amazing people who are just like you, and your value to us all.

Our volunteer core created that Sound Mind & Steerner #1 YouTube Playlist to load on Flash Drives and get them to be played in American Prisons and Youth Detention Centers because it's more than rough inside. This has never been done before, and we are just going for it, inspite of the lame excuses and backlash, and, yes, that's really been another kind of battle, but well worth it because people on the inside of the most oppressive environments really can use Educational, Spiritual, and Social Reality based Content showing on inner-facility Medi2 Center TV.

Educate and Entertain from a perspective that the so-called experts failed to engage. Please share with your son, and his friends, and yours as well.

Wow, what a year Huh?

You Be Safe out there, Because COVID-19 virus. ☺
