I Tried To Warn Everyone... I Told You:

If you will look back over the posts I have made the past several years you will see I have been screaming about a "monster" which the government gave a free pass to. I warned you (Mississippi) he was walking free among you but absolutely no one cared. Well... now he has struck again. Let me first refresh your memory. Back in 2002 a man from Stone County Mississippi was arrested for sexually abusing a five year old and seven year old boy. Upon further investigation it was revealed he had also produced porn with these children and he had thousands of images of child porn "containing young male children or babies". This man had a relationship with me and had also abused my family and made child porn with my family.

He made some type of deal with the government and was never charged for any of the child porn he produced, collected or traded. He is even in a picture sexually abusing a 2 year old child but was never charged for Any of this. He said I "conspired" with him.

New Crimes

Now - - This same monster I've been screaming about for years has struck again. This time he had 4,000 images, 700 videos, and porn he produced with "an infant and a toddler"

Can some^{one} PLEASE help me expose this?
The public should be outraged over the fact he was let go the first time.

Because the government let him go the first time he has victimized another
INFANT and TODDLER!
*

This is not even about me or my innocence. This is about the crazy insane act of letting this monster go the first time. I am furious, sickened, and saddened by these recent events but --- I tried to warn everyone

Contact me if you can help me expose this and perhaps help get the law changed so this can never happen again.
