

FCC PETERSBURG

INMATE BULLETIN

Water Usage/Consumption

Due to mechanical issues related to the supplier of water to FCC Petersburg, we will be temporarily restricting the consumption and use of water. Starting at 4:00 PM, today Tuesday, February 16, 2021, on a rotating schedule, each housing unit will have access to water to flush toilets for one hour. After the completion of the hour the toilets will be shut off to conserve water consumption. Once each housing unit has had the opportunity to flush toilets the rotation will start back over. REMINDER all water is still under a boil advisory and is not suitable for consumption.

Example: (All times are approximate)

A/B Unit: Water on to flush toilets 4:00 PM to 5:00 PM

C/D Unit: Water on to flush toilets 5:00 PM to 6:00 PM

E/F Unit: Water on to flush toilets 6:00 PM to 7:00 PM

All toilets will be shut off at 8:00 pm. At 8:00 AM toilets will be turned back on, on a rotating bases.

J. Andrews, Complex Warden
