

CALL TO ACTION

I've mentioned this before, but I ask that you all please start using and promoting #GONKLONGERLONGH.

This represents a number of prisoner-related issues, including but not limited to:

1. Lowering federal (and other) sentences to 65% of time served for all prisoners.
2. Abolishing mandatory minimums.
3. Fair sentencing based on actual harm caused to the community.
4. Prison reform in general (I'm open to other ideas).

Please pass this on to your political leaders!

CALL TO ACTION

Please email Director Carvajal at BOP.GOV (I don't know his exact email address & if someone finds out what it is, please let me know), and protest the ridiculous incident reports given out by the staff at FCI-Petersburg (Medium) like the one given to Wes, and please feel free to complain to your Representative or Senators.

* Please DO NOT mention my name and especially do not reference or link to my blog. I will be retaliated against.

Thank you!
