

# POSTING Some Thoughts

#1

So its Saturday morning 2 28 21

Im brought to my own  
insignificants, Im listening  
to NPR News and the topic  
is the upswing of assaults on  
the asian population, sickeningly,  
the cowardly perpetrators of this  
in sanity are targeting elder people.

So as Im listening, I hear  
Country wide that my countrys people  
are stepping up, Bless you all,  
and the New York groups,  
"Enough is Enough", Thank you!!

So now, although my upcoming  
diatribe that I would have considered  
the title for, while still, is enough.

California is suffering from a grand  
fraud under the guise of  
"Initiate Justice" and all the  
it's poured in to the coffers is spent  
litigating insignificant issues while ignoring  
the root problem, Californias Slave trading, Democratic  
legislature. The Victims, all, behind the walls.  
Their victims outside the walls. The Families, All the  
victims of the Crimes committed. The People Vote  
The State ignores, Californias Criminal enterprise  
grows. While race is an issue, it is NOT the Issue.

Prop 57 Passed in 2016 Your COCRs refusal to respond  
and the state  
What year is it?

Here's an Idea, Family history, SocioEconomic issues -  
Most Domestic Violence Cases,  
On one side or the other, a great  
part of the crime was fueled by  
Substance Abuse Alcohol etc.

Because they know that drug dealers & users will reoffend  
The current attitude is let the  
minor dealers and drug offenders go, "fatten the Bank."  
But not the Domestic Violence  
perpetrators, Non Violent under prop 57 30k to 100k

Both sides Victims of Substance abuse Prop 34 47, mostly typos, errors or misstatements

Prop 57 - giving the state 18 mos. I consider my present incarceration  
I fought a writ and won, Mind you, I'm no lawyer -  
it shouldn't have been necessary for  
me to do, the law Prop 57 was clear.

Illegal

arbitrarily, Then COCR changed the law to  
fit their need Claiming Public Safety  
to procure 2. some million dollars in perpetuity  
to hire people to keep in mates in prison  
With "Risk assessments," while denying Due Process  
under Johnson v Shafter And Full Board Hearings, added  
Denying me a date, <sup>pre</sup> Hearing Re: Attorney statement +  
"Heit not giving you a date base on the Risk assessment"  
Told me it would take 18 mos for a new Risk assessment +  
I told him full I'm not <sup>postponing</sup> postponing, called him a Charlatan.  
on the state tit told him what he was doing was Fraud  
and he should be charged Then I gave him Hell on the hearing  
I got a 10yr. Penial - Pretty Bias. A lot of interrupting <sup>5h</sup> I'm not Alone

I have been in my life, at times, a very horrible person, Didn't realize it at the time though. Its just kind of how my life evolved. No matter the how. ~~For~~ now, The NOW is what I'm concerned with.

Because of my past I fell into a California Three Strikes Sentence, Way back and years ago I kept evolving, learning, then.

I left behind 2 plus one Daughters That Love Blessed me with and two stepsons that still haven't decided how they really feel.

I love them all and have always left the door open, With some progress made, We all are grown and know the truth, now.

And the truth will

See you

File

California (Small chart <sup>pages</sup> ~~for~~ concerning My Chronology)

Civil Case 50 Applied to my present conviction.

You had to be there to understand. I was.

I, for my first conviction readily admit it was deserved, If not for the convicted crime <sup>SP</sup> which could arguably have been a crime of ~~unconscious~~ <sup>unconscious</sup> passion? but for the horrible way I treated her anyway. My Being Dosed by a rival suite (RP) Culminated in a horrible crime.

Domestic V laws, r. Draconian in application  
High Pressure, These are Statistics for and of  
Military Police offenders, If your interested  
you can research, I already did.

Top to Bottom

Corrections } How can Imprisonment fix a  
ER Personnel, who don't fill the prisons. ↓ ↓ ↓  
Then, The Unemployed with issues socio economical etc  
Who fill the prisons. Addicts. etc. "Catastrophy"  
Example That Can Be Verified as to application of law.

On My first Prison Conviction for, and I deserved it,  
Domestic Violence, Pre sentence, I  
was sent to China for what they  
called a PSYCHOLOGICAL Observation, more on this letter  
While there an employer, married to  
a Correctional lieutenant, showed to work  
on several different occasions with,  
different, A Black Eye, swollen lip  
lots of makeup over bruises, injuries,  
and she made sure we knew who applied them.

Just one Example. Law enforcement? Non Pros.  
We Inmates witness overt Sexual Harassment  
of female guards, pretty often and we  
are under threat of prosecution for same.  
Huh? So Pardon Me at times if I seem  
Biased - But Be assured I believe  
A spousal Rapist, the worst of the worst  
and Judgment last ye be? Just an opinion. more.

CDCR Has Authority to Review and Release Prisoners #5  
The People of the State of California need to

CDCR and The BPH and the ~~IOAL~~ IOAL  
Are geared to keep People in Prison  
The longer the better

State laws Passed by the People are arbitrarily  
applied by the agencies, Denying in mass  
Due Process Rights of individual citizens.  
and breaking the law Both State and Federal.

With the California Courts in their pocket.  
High Courts Routinely send cases back to lower courts who put them on hold  
Hold (Until People Pass Vote new laws into effect to alleviate the strain)  
Then The State Allows CDCR to circumvent, never ending cycle

Per NA AA - 1-4 and part of 5

The simplicity is, I have, I do, I will.

I have done an indepth years long study/Progressive of my past transgressions (crimes) (behaviors) (actions)

This does NOT include a study of my "victims", However, I've gleaned an understanding that we are, The broken; Victims all, of our pasts, all entitled to a voice. This Area goes very deep and I will revisit it

when appropriate to my mission. Bad Parents?

No, Just Parents, raised by their Parents, (sometimes) in an ever more complicated society (there are exceptions)

Life is so complex when young, The Golden Rule fades to confusion, yet still applies.

In learning and maturity with "Faith"

Wow there's a topic though I digress

This will be a latter topic of the

"Delusional" Ass BPH Commissioner Anderson

informed me, that <sup>is</sup> what I am.

The Golden Rule Should be Preached above profit, Golden Rule, Golden Age

now, which a thunk, life can really be so easy if only you look back

and learn, Without hindsight,

there is no (insight), look that word up, its fake, doesn't exist, its

narcissistic. So, that's The I HAVE. Did not see that coming
