Excerpt: Dear son, Marcus, its been so long since, "R never getting out" 10 yrs to date. 😞

Hoping all is well there with you and your little family and no one contracted the COV-19. Being in here all so close together we received the shot early. "Thank God" as a couple of guys right here in this prison Not got it and Died! (700 Hols in the House!

Have't heard word one from Sarah since last year and I've tried calling collect, unfortunately every couple of days. I talked to her the night that Children Services brought all "4" of her boys home. She continues to be tight lipped about why they where taken and why, all of you don't seem to get along? But God only knows, it could be all B.S.!

From in here, not knowing is the worst punishment they can give us. Write to me, "hear my side"!

Love Ya & Always Have
