DEAR B+B

I am writing to let B+B and others to know PRISON Adm. has given out a vaccine, I was given my 1st dose of Moderna on 4-7-2021, I was told in after 28 day period to get my 2nd dose but told I would be rescheduled?

I'm not saying this to refuse it being I've fallen flu shots for the past 15 yrs, not had a cold since... But what Boggies me is right after I was given my last flu shot we were to have a Covid test + our Montus Sumb this was March 2020... 6 months later in Oct I had just gotten a flu shot and at the end of that same month I'm given another Montu Sumb and I'm told I'm positive for Sars-Covid2... I'm like yeah had a flu shot not even 30 days?

I have all of the papers given to us, I mentioned it to the nurse I'm told nothing?
