

We are living in underclass generated Society or world

Today we are living in the most difficult times that I have ever seen since being born in 1974. The atmosphere is set to everyone wants to be in control of something or someone. No one can live in peace. You get those individuals that copulate how to dictate what you can say, what you can't say, wear, do, where you go and how you do it as if you are a child. That needs guidance or sense of direction. Where does the egoism stop? Where does I know what's best for you stop? For instance everytime Democratic ~~has to help us~~ leaders tries to help the American People. All you hear is that is too much money for the Covid relief Package or the infrastructure. Are the people not going to want to go back to work if you keep giving them stimulus. But all the while you're not suffering, you haven't lost your job, house, apartment, car, nobody died in your family from Covid. The storm is huge in this citizen life. How is that your going to tell people. They ain't going to want to go back to work because they are being provide with they need. That was a lie and slap in the face. Because for some people \$1400 wasn't ~~enough~~ enough for all their bills. Bridges are collapsing, roads are suddenly dismantling our infrastructure is going to destruction. This is a dangerous and hazardous to every day citizens that have to travel up and down the roads. Who do not have the riches or the private jets. Why would you want to stop these things from happening. I feel it's not a money issue it's a control issue. very sad why does this keep happening on the watch of Americans. When it comes to the next subject Domestic Violence. How these case are handled. I have two friends who killed they boyfriends. One has been in prison long and the other one been in for a while. Domestic violence organization has been trying to help. When the people ~~to~~ went to get the record when she called the police and made reports. After so many years they destroy the 911 calls and records in Barnbridge. How is that? No records should never be destroy. My friend that been in for a short time has went through three ~~at~~ appeal attorney fees. They keep removing themselves from the appeals. Nothing on her behalf wrong, it's them. Then what I don't understand how their family end up being victim in some these cases. Because they knew their female relative was abusing the guy, or the male relative

was abusing this girl. But nobody did nothing. all of certain you
crying about the perpetratoring dying. My poor brother or sister or cousin.
The person was very abusive to they mate. Very sad they are gone and
the other person losing their life to prison. In the children losing
both parents all in the name of somebody was controlling. It was they
way or no way. No peace in the relationships. You can't freely walk the
streets, have fun on the internet or just go to school have a great day.
No peace ~~what~~ what so ever somebody will lose their life to gun violence
no fault of their own, Bullying on the internet and in our schools. Very sad
somebody feels they have to be uncontrol the wrong way. We want to
choose who gets education and how they do it. Education should be for
everyone no matter rich, poor or middle class. What kind of people
can play sports or get a education, or what bathroom you can go in. you
need to be like this or think like this if you don't you don't fit my
norm. Where is the peace. Can I just live in this world in peace, many
people are saying to themselves. Can I just be myself? Illegal immigrants
at the border can we just get some peace in our situation. Can't you
understand my situation for once. what if it was you had my situation
very sad people are so controlling, open hatred and ~~less~~ less compassion
these days why is that. Can I be peaceful for a change? Can I catch
a break?
