

ATTENTION - ATTENTION - ATTENTION - ATTENTION

The withheld exculpatory evidence in my case which proves I am innocent of any kind of murder, has been suppressed, while I was convicted by what was falsely presented as overwhelming evidence as to guilt! Which means for nearly four decades the true killer(s) have been free to kill again and there is strong evidence, that they did! - Which supports the reason the evidence proving when I stood midway through my trial to shout I was being railroaded, has been collectively suppressed by the State of Florida's legal system - through their having complete control over how I been represented before the courts - above and beyond all my well documented objections... Which brings forth a pattern showing Florida's legal system is guilty of Racketeering ( obstruction of justice )... To cover up the fact of their incompetence in convicting the wrong people and allowing the true killers the freedom to kill again!!!

Sadly, over the past 39 years I have done everything I could and been unsuccessful in getting the truth of the injustice I suffer acted upon in order to vindicate myself - I have finally concluded that without the help of mass protest drawing attention to the glaring evidence of the injustice I suffer - help will not be found... Please add my name to the people of color lives matter movement - I have had Charlie's knee on my neck for 39 years and I am crying out that I can't breathe - begin campaigns to draw attention to my being murdered, or stand by complicatedly watching as Charley continues to kill me...
