" RECREATION "

Once again here at Union Correctional Institution P dorm death row housing we've been denied recreation. We went six days straight of solitary confinement. We're suppose to be guaranteed a minimum of six hours a week of recreation. And today Friday April 30,2021 we were suppose to get our second yard. However yesterday Thursday April 29, the Administration had our yard officers work until after 4 PM, and then forced them to come in at midnight, and work until 4 pm Friday evening. Bottom line is we're all being treated like crap by this administration. If they don't care about their our officers, then its no surprise that they don't care about our physical and mental wellbeing. And that's the reality of the situation. Sad but true!

Sincerely Ronald W. Clark Jr
