"DIVIDE AND CONQUER"

Its a shame when the FDOC tries to divide family and friends, placing a wedge between the inmates free world support system, hoping to cause enough division so that you will abandon your incarcerated family and friends. Why would they do this? Well its simple. With little to no outside support, they can then run these prisons in the barbaric and inhumane manner for which they desire, without any outside intrusion. And that is their ultimate goal. I've heard this line of bull they sell to the media legislature and public. But like I said and will continue you to say, actions speak loader than some measly hollow words! I've had the assistant Warden here tell my people, " Oh Clark's lying, he does this when he doesn't get his way." Well number one I've volunteered to back up anything that I write with a polygraph/ voice stress analysis test. So I'm not going to lie. Now the only thing true in her statement, is I'm not getting my way. But what am I looking for? Well if you go back over every letter and complaint that I've written, you'll see everything that I'm looking for is stuff that we're already entitled to!! What am I looking for?! To start off I'd like to see them act professional! I know its hard but its required by 33-208.002 Rules of conduct and its governing laws. I'm looking to get our recreation, sanitation and a clean living environment. So I don't think that's asking for too much. I asked to have the shower fixed back in October 2019 on 4-wing. The Assistant Warden's response, " I sent someone down there and the shower works just fine." I wrote her back and explained that if the shower works so great then why does the video show that staff is only using one shower? Yes it doesn't take a rocket scientist to see that the shower was broke! Heck the wing Sgt had put several work orders in to have it fixed to no avail!!! So the video and the paper work from STAFF supported what I said! This is what we have to put up with!! Instead of working with us to correct a situation and resolve it peacefully, they'd rather deny us and fight us on it. I know your saying, "Why would they do that, it doesn't make sense?!" Yes I agree 100%! And that's what boggles the mind. Why? Why ?Why? What sense does it make? Does it psychologically thrill them to cause confusion? I don't know. One thing is for certain I can't figure out there method of madness. But you can believe this I'm going to continue to fight for change until they kill me. Because right is right and wrong is wrong! And yes they will continue to do things the hard way. Yes and the question will always remain, why? What ever you do, never allow the FDOC to drive a wedge between you and your incarcerated loved ones. God bless you and continue to fight the good fight.

Sincerely Ronald W. Clark Jr. 812974
