

How was your Spring Semester at your Tech school or University?

January 28, 2021 I finished my certification in Introduction to Hospitality, from Central Georgia Tech. February 4, 2021 I started Ashland University. The difference between the school. One require more writing essay and the work is challenging at University. But it's worth it. So what am I doing at the University working on my associate of Arts than my Bachelor of Arts: My Major is Communication Studies. I am double minoring with business management and ~~sociology~~ sociology. For my first semester it was hard but I made it Grades:  
Exploring Christian Ethics C  
American History Through Civil War A-  
Introduction to Management A-  
Introduction to Entrepreneurship B  
my GPA = 3.0850

Now this summer ~~semester~~ semester  
my class are  
College Writing Improvement  
Practical Thinking (Philosophy)  
~~Abandon~~ Nat Disasters: Severe Weather (meteorology)  
Listening to Jazz

So my school semester was challenge  
but I made it with success. I love the  
University of Ashland. The Doctor and Professor  
so helpful and understanding and ~~patien~~  
patience with you. That is what makes  
a good instructor. I didn't want to leave  
my instructor classes. I liked my first  
Semester instructors.
