## THE CONVERSATION NEVER HAD

Tagline : " Where would the Human species be in the evolutionary / revolutionary track with out the conversation ??? "

#theoneumiss ; #just-a-convo'away ; #I-miss-u ; #What-if-we-onlyb-gone ;  
#i-wish-i-had-met ; #underbetter-times ;  
#theone-u-never-had , #spendthenight.

1.) I had thought as a result of the covid pandemic that my conversation / Socialization would had been plenty ;

that I would be enriched in new opportunities of emailing new friends and exciting & meaningful dialogues with new

people ; That I would have plenty of time to write more blogs , read more books , learn more languages , study

more spiritually , talk on the ph# , Zoom weekly and release the poetic flow.

2.) Instead of an increase , my daily out put / input has decreased. and I find my self longing for the Fulfillment of these

Human institutions of culturalization ; All these MEDIUMS make us better Humans ; and are an acquired skill set that

we have cultivated over the span of our arrival as the superhuman and master of all w purview .

3.) Those of us blessed to have not lost any one to the Coivd Monster may not appreciate what it is like to not be able to

talk to some one again , though this would account for any lost regardless of it being a covid death. But a covid lost is

Unique in that this is new and not something that we could have dodged by individual volition .

4.) The one thing that I have done repeatedly through out the pandemic is to recognize the scarcity of time that we have in

this world . and while have not done the things that I wanted to do , I have never lost the notion of how important they

are to me and to the Human culture.

5.) For me the one conversation never had is / was not to , will not be , do to my lack of effort or time, God willing .

But do to the fact it require Two or more to compose a proper dialogue . While some times a convo -with-the- self is /

can be meaningful, its just not the same . Soliloquies aside , The Human Brain would never brought the soliloquy out the

cave if it could survive by itself.

6.) And that is why I miss my conversation with Catholic girl , of course that would be her avatar , when you have a good

conversation with some one it release dopamine which anchors to the image you have of the one you are conversing

with. and if you add music or a drink with that , the experience can be something you never experience before , I have

had the pleasure to experience this with / and w/out other influencers and I like the natural . I like to call it the " Doja cat ",

a neologism I made while composing this right here.

7.) Being in prison having a Good conversation with any one is rare, and even more so with the preference of you're

choice . Conversations on the phone have inferior affects on the richness in which I speak but they too can have the

doja cat effect in which I speak.

8.) The musical selection as background ambience is very important, for me the I.B.'s (Isley Brothers) are the No#1 play list.

but that would be contingent on the relationship, the stage and even the mood at the beginning of the convo.

for me my conversation with a woman have no borders, I can talk about anything and everything under the Sun and

never over step or be disrespectful or intimidated or feel the need to rise the ego. My manhood never feel threaten or

emasculated. Some of my best conversations have been with women, and I admit there is an inherit bias in that

I was attracted to most of them. However, even my conversations with women that I hold in reverence, I find to be

more interesting. One of my Spiritual / philosopher teachers, help me see and test the range of my convo. her many

years of existing and her depths of learning in the Japanese culture /Zen allowed me to go international with my

dialogue. Such diversity allowed me to also pin point my flaws and correct, adjust, iron out and culture my skills towards

that unreachable perfection.

9.) I close this essay with 12 songs that are headliners in my master mack play list.
