"VICTIMS, VICTIMS AND MORE VICTIMS"

Yes here we are with three scheduled homicides. Two in South Carolina and another in the blood thirsty state of Texas. Will we ever learn that this eye for an eye mentality doesn't work. It accomplishes absolutely nothing! All your doing is victimizing the family and friends of Brad Sigmon who South Carolina is scheduled to murder on June 18, Freddie Owens again South Carolina wants to murder a week later in their electric chair, and John Hummel who Texas wants to inject with a lethal dose of cocktail on June 30th. And some will say, but look at their crime. Well. . . is it any worse than the crime that your committing against them and their family? Because these men have families that are counting down the last weeks, day's and hours of their loved ones life. Their sitting there helplessly praying for a miracle. And knowing that all of this could have been prevented with a high powered lawyer. Yes these men's lives are being lost because they didn't have the financial means to go against a District Attorneys office that has an unlimited budget and resources. And more than likely all three of these men, were represented by underfunded state paid attorneys, who stood little to no chance against Big Brother! Yes that monster of a US Criminal Justice System that's about as warped and one sided as it gets. Due process??? If you believe this lopsided representation is due process, well your lying to your self to justify killing the poor and uneducated. Because one things for certain, Equal Justice can't and will not happen when these playing fields are so one-sided. And there's no way to justify it. We just can't do it. We need to wake up, open our eyes see this for what it is. And let's end the victimization. Because honestly that's all were doing here is creating more victims. Ask Sigmon's, Owen's and Hummel's families along with all the other families who have sat helplessly as America murdered their loved one in the name of God, Justice and the American way. Yes what a sick twisted way. We need to apply commonsense to this problem. Because let's face it, the scales of justice is about as unequal as they come. Please join our fight to stop these three murders. May God bless you and lead you to do what's right.
