

Title - Sex Education - for Prisoners.

1 of 4

"sex-ed"

"wait, what?"

"what do we not know?"

"Teachers forget about gay kids"

"what happened Bro?"

"as a gay kid, that class was a nightmare, it was all hetero, the birth part was good actually, but the STD section wasn't about us"

"Condoms? Pills?"

"Yesh, for people to be so anti-gay, they sure try to prevent people from having kids, like, they even tell adults to wear condoms, and women to take pills, so there goes the Adam & Eve story right out of the window"

"that's a trip huh? do you use condoms?"

"Nope"

"Ever had an STD?"

"Nope"

"Top of Bottom?"

"Equal, I don't take chances with non-circumcized guys, or I will consider a condom"

"Why?"

"Cute don't mean clean, I help out!"

"and who teaches boys to deep clean in sex-ed of at home?"

"Sex-ed should include how to clean, and anal maintenance!"

"Straight boys hoop dope, cellphones, and weapons, and then wonder why they get hemorrhoids!"

"I get it them in private because that area can't take frequent action, so, there should be a male "Snapback" section in sex-ed so that queer youth and adults can learn how to care for themselves!"

"but people say that promotes homosexuality, and kids are too immature for that part!"

"Look man, I'm talking about promoting safe sex, with or without condoms and pills, and people get mature real quick when that sphincter rips and starts bleeding, and there is nobody to talk to about it, or how it happened, feel me?"

us masculine boys learn the hard way!"

"You're absolutely correct, because when blood shows up during sex, sex-ed becomes a factor."

"Youth are coming out earlier now, so yes, education should catch up, for the time, money and energy and resources people, and religious people use to try to scare gay youth straight, they could be providing "NOW-based" education to save lives now, instead of soul hunting."

"gay souls?"

"Yeah nigga we got souls too."

"teach son"

"the current standard model for sex-ed has not been successful for several generations of heterosexual kids, can you imagine the horror of the "closeted kids" in those same classes that learned ZERO about self care, awareness and maintenance?, now, amplify that by prison culture, and this is why we created Sound Mind Streamer because LGBTQIA+ people do require center focused intelligence."

"Yeah, Because HIV and AIDS hasn't gone anywhere?"

"True facts, we even put up TRUVADA for Prep medication in our program, so we can see the racial disparities, and now we put up now that was discontinued and the new drugs like Descovy for Prep is released because Company Doctors New Truvada for Prep was bad, and they made a lot of money off of that bad drug, and there is no sex-ed class, or straight religious organization to provide quality "now-based" information for prisoners because they only care about saving souls, not saving lives!"

"That's deep Bro"

"Yeah, Gay lives, bisexual lives, lesbian live and transgender lives, and "private expression" lives."

"So, get away from us, or stop being gay, becomes the easy way out of not providing equal treatment."

"YEP!"
