

Getting vaccinated Is very Important

And why do I say that is because you are helping your neighbor by protecting them from a early death as well yourself. Come on people let's not be selfish people. We got to care about more than ourselves. I been vaccinated with mrenda. I am alright. Do you want to be alright. Please Get vaccinated. if you haven't and stop worry about the ~~unnecessary~~ unnecessary.

Why is the Infrastructure Bill is stalling a vote. Some of these Infrastructure has been Build in the 60's 70's etc. These infrastructure being build over are important. Some people not satisfied in the government until a bridges on a road ~~etc~~ came in on them. Self explanatory so why are we still talking about this.

Business world - The impact of inflation - the rising prices. So if there is supply chain is low. Why not move your demographic to another location. Where you can develop more supply. Such as crops for example there is a drought in ~~the~~ Texas. But I have another supply in another state that won't been destroy by a drought. In the business world you must learn how to work your demographics.

Labor shortage in United States - why is there a labor shortage? Is because alot people incarceration or because of death rates. Are we still using the COVID-19 as excuse to not hire people or people don't want to work because they are afraid of getting COVID-19. My son just had a problem with the city of Blakely GA. He went to get a job driving the grabbage truck. They wouldn't hire him. From this situation. People are so picky with these jobs. In a time that is so troubling for the American families and communities. So what is the problem with the labor shortage? When jobs are few and people are hungry. Don't know what their tomorrow is going to be or who how they going to eat or pay bills. Crime Rate and violence is going to shoot up people. This has been repeated by for years. Crime Rate and violence goes up because of poverty. It wrong what is going on in Chicago, New York - the violence. You want the youth and adults to stop robbing killing, can jacking give them something to look forward to in your community. Give them away of escape out of the gangs and street life.

The left behind our senior Citizen. My understanding they receive
Pense on their social security and disability checks. Some then
only get enough to pay one bill in the house. If they don't have a mate,
then going to struggle. When I was a single man on welfare, I received
\$400 worth of food stamp to elder lady who stayed next door only
received \$16.00 worth of food stamps. Yes it was important for my
children to eat but to me it was important for my senior citizen to eat
as well. AFAC has been robbing the senior citizen like this for decades. ~~It~~
It's time for our senior citizens to eat good as well. Give them ~~more~~
more food stamps. Help them don't leave them behind like that to
suffer. They deserve a good meal as well.

People we have to move better in life. If we want better. Is
it necessary to keep making the same mistake, decision and talking
about the same thing if we ain't trying to put our feet down. I am
one for curfews. When your community is getting ^{of} hard with violence
and drugs curfew is the answer. you get to get control of your communities.
I've notice in the past riots because these people don't want to
acknowledge curfews. But something has to be done and in New York,
and Chicago in a decent way but effective way that is going to put a
stop to the violence and carjacking. when I left New Jersey in the
early 90's. we had a problem with carjacking in New Jersey and
New York.
