#ClemencyNow for Jennifer Rose!

Please support clemency for anarchist prisoner Jennifer Rose! Would you like to share your internet skills with us to help start an online petition or fundraiser account as a way to build public support and community solidarity for Jennifer Rose, which we hope will allow readers to sign the online petition and post their positive support comments about why they support a commutation and early release for Jennifer. The petition should be titled as follows:

"Please Grant Clemency for our Sister, Jennifer Rose!"
Write a support letter for Jennifer to California Governor Gavin Newsome, which states your name, profession, and explains the main reasons why you believe Jennifer deserves a Commutation of Sentence, and emergency release! For example, her Elderly Parole/Youth Offender factors of being under age 26 at the time of the offense, and currently aged 51 years old in declining health. Also, "non-violent" third strike offense, which she committed while protest her abuse in captivity, and solitary confinement torture

which she resisted by attempting to escape from the Courthouse! Jennifer is a survivor, unimaginable suffering and trauma, and tragic life story which she hopes to share! Address your support letter to:
