## WE ARE THE FREE PEOPLE

We are the Free People. We have grown up—grown up to Freedom, not senility.

We are the Free People. The Scientologist has left behind the claws and barriers of miscontrol.

We are the Free People. Grown from out the mud and jungle rot of fear, our unchained minds can reach afar and grasp the idea of ultimate Freedom.

We are the Free People in whom the whims of "I'm supposed to" have no rule, on whom the scientist can blunt his weighty arguments to prove we are not Free.

Be glad, they said before we came, that you are mad, insane, for *there is* genius, so they said. You cannot change. Our brand on you is fixed. Your brain is all you are and fixed like clockwork in a robot head. So think, they said, as we have said, to think, for thought is our own chain and your ideas nil.

Die, they said, and live no more and become dispossessed so we can own. Fall down, they said, and worship clay or maybe space, but of course wrath. And sing lugubrious songs to fear or maybe international cults that specialize in slaves.

Believe, they said, that man is just a slimy thing well meant to die beneath the pounding of their bombs—the mightiest God they knew.

The flesh, they said, is All and you are but a decay of yourself.

And so they barriered all men.

The witch and the pot; the test tube and the scope; the cell and the club; the textbook and the lies—Control! Control them or we die! Beat them or they win! Starve them or we shrink. We are afraid, afraid, afraid!—they said in that old age we killed.

My sentiments - exactly. Do right and fear not!

Freedom beckons and we now laughing at their lies, went free.

Scientology—The Road Sign Out.

We are the Free People. We LIVE! We're Free!

FOUNDER

**FREEDOM**, 1. ability to create and position energy or matter in time and space 2. the absence of barriers 3. lots of space and ability to use it. 4. the component parts of freedom, as we first gaze upon it, are then: affinity, reality, and communication, which summate into understanding. Once understanding is attained freedom is obtained. <sup>①</sup>

**SCIENTOLOGY**, 4. an organized body of scientific research knowledge concerning life, life sources and the mind and includes practices that improve the intelligence, state and conduct of persons. 6. the science of knowing how to know answers. It is a wisdom in the tradition of ten thousand years of search in Asia and Western civilization. It is the science of human affairs which treats the livingness and beingness of man, and demonstrates to him a pathway to greater freedom. 9. the study of the human spirit in its relationship to the physical universe and its living forms. 10. a science of life. It is the one thing senior to life because it handles all the factors of life. It contains the data necessary to live as a free being... <sup>②</sup>

*"We're trying to rehabilitate the  
responsibility for the control of the  
environment in the individual.  
We're trying to raise his ability,  
himself, to confront actions and  
reactions across the boards.  
And if we do that, we've got it made."*

This above is from the Source, which impels me to follow through in my ambition to avenge Prometheus. This above, is my license. Source alone, is the only 'authority' I need, as I "take my share of responsibility for the impact of Scientology upon the World" (Code #17)

I stand by and affirm the (attached) CREDO OF A TRUE GROUP MEMBER, in my Scientology Prison Outreach efforts to help rehabilitate prisoners exiled to penal colonies. This SPD ambition welcomes ALL who also affirm this CREDO. Print-out a copy and send it to me signed, if you'd like to join us in rehabilitating prisoners.

SOMETHING CAN BE DONE ABOUT IT!

# THE CREDO OF A TRUE GROUP MEMBER

by L. Ron Hubbard 1957

1. The successful participant of a group is that participant who closely approximates, in his own activities, the ideal, ethic and rationale of the overall group.
2. The responsibility of the individual for the group as a whole should not be less than the responsibility of the group for the individual.
3. The group member has, as part of his responsibility, the smooth operation of the entire group.
4. A group member must exert and insist upon his rights and prerogatives as a group member and insist upon the rights and prerogatives of the group as a group and let not these rights be diminished in any way or degree for any excuse or claimed expeditiousness.
5. The member of a true group must exert and practice his right to contribute to the group. And he must insist upon the right of the group to contribute to him. He should recognize that the myriad of group failures will result when either of these contributions is denied as a right.
6. Enturbulence of the affairs of the group by sudden shifts of plans unjustified by circumstances, breakdown of recognized channels or cessation of useful operations in a group must be refused and blocked by the member of a group. He should take care not to enturbulate a manager and thus lower ARC.
7. Failure in planning or failure to recognize goals must be corrected by the group member, for the group, by calling the matter to conference or acting upon his own initiative.
8. A group member must coordinate his initiative with the goals and rationale of the entire group and with other individual members, well publishing his activities and intentions so that all conflicts may be brought forth in advance.
9. A group member must insist upon his right to have initiative.
10. A group member must study and understand and work with the goals, rationale, and executions of the group.

- 11- A group member must work toward becoming as expert as possible in his specialized technology and skill in the group and must assist other individuals of the group to an understanding of that technology and skill and its place in the organizational necessities of the group.
- 12- A group member should have a working knowledge of all technologies and skills in the group in order to understand them and their place in the organizational necessities of the group.
- 13- On the group member depends the height of the ARC of the group. He must insist upon high-level communication lines and clarity in affinity and reality and know the consequence of not having such conditions. And he must work continually and actively to maintain high ARC in the organization.
- 14- A group member has the right of pride in his tasks and a right of judgement and handling in those tasks.
- 15- A group member must recognize that he is, himself, a manager of some section of the group and/or its tasks and that he himself must have both the knowledge and right of management in that sphere for which he is responsible.
- 16- The group member should not permit laws to be passed which limit or proscribe the activities of all the members of the group because of the failure of some of the members of the group.
- 17- The group member should insist on flexible planning and unerring execution of plans.
- 18- The performance of duty at optimum by every member of the group should be understood by the group member to be the best safeguard of his own and the group survival. It is the pertinent business of any member of the group that optimum performance be achieved by any other member of the group, whether chain of command or similarity of activity sphere warrants such supervision or not.
