

Gov Andrew Como

We are putting this public. So I have some questions to investigation side of Gov Andrew Como. This is one of my favorite people.

(1) They say there is evidence against him. Could I ask a question how many of these women took gifts from Governor Andrew Como but because they didn't get what they want all the allegation came to surface. Why do you ask such question? I was raised in New Jersey. Have family in New York. Case like this I am going to look at it from a city point of view. The Big Apple where a lot of people look for opportunities to come up. City where ~~you~~ if you ~~may~~ meet the right person the sky is the limit until they tell you no. But before anyone go impeach him. He needs a independent investigator come from another state to investigate that are not familiar with the news and these women. So the bias and prejudice want come in. I believe this investigation needs a second look into.

(2) Secondly if you've been accused of sexually assault a person ^{get off} or haven't gotten caught yet please hold your opinion. People are quicker to bark up somebody else tree until it happen to them. Be careful about the one I believe it's more to the story than the women telling - How many gifts and money you accepted from Gov Andrew Como but you don't want nobody to know. What was agenda for you going along with at first. I don't know who don't talking to but the truth will come out. Who do you don't want know truth your husband or mate?
