" DAY FOUR "

Today is October 6, and day four of this peaceful protest to correct this erroneous DR and Visitation suspension. Last thing I ate was Saturday at about 6:30 PM. I've had a bad headache that seems to come and go. Some issues with acid reflux. And cramping that is at times brutal!! My neighbor's were asking if I was okay. Last night it was all night long. Other than that things are good. I don't see this administration trying to do the right thing. They hate me because I'm constantly embarrassing them. When you have someone who's constantly embarrassing you airing your dirty laundry would you help them? Maybe that was the whole plan of using my laundry bag to set me up and suspend my visits. Don't keep airing our dirty laundry or we will use your dirty laundry bag to stop you? Who knows if they come up with that idea. I know visitation suspension has never been used in the history of UCI for 3-17 which is a minor DR(disciplinary report). So that in and of itself shows that this was an orchestra plan to take my visits harming not only me, but my family. Welcome to the wonderfully corrupt world of the FDOC! Its going to take pressure from the Legislature to get this changed. Because let's face it the DR hearing and appeals was a joke! And then when you look at how I'm the only person to have ever had visitation suspension for this minor DR, well this reeks of retaliation! God bless you all and never give up the fight.

Sincerely Ronald Wayne Clark Jr. #812974
