" UPDATE DAY 14 HUNGER STRIKE OVER"
RETALIATION FOR 1ST AMENDMENT VIOLATION

Today is Saturday October 16,2021 day 14. Just seen the nurse my weight was 208 pounds. So I've dropped 30 pounds in two weeks. My bp was 124/82 bs 76 pulse 84. So everything is still good. I was feeling so good this morning that I wrote an alert for the media. Its time to bring this to an end. Its time for people to stop burying their heads in the sand and allowing the FDOC to be the most unethical and immoral Departments in the state of Florida. And I'm going to do my best to bring it all to light. True enough what I just wrote has the potential to get me killed. But when you do what I do you can't worry about that. They brought this fight to me when they didn't retaliate against me, they retaliated against my mom and my fiancée. And they should have known that that's not something that I'm going to sit back and allow. I know this is far from over. And I'm prepared to go as far as I have to to correct this retaliatory act. God bless you all. And continue to fight the good fight.

In peace and love Ronnie
