

P.S.

10-18-21

Yes Joe, I know ... 3rd Dynamic activities. Existence in groups of individuals. I get it. Such activities serve to allay The Only One syndrom some innovative protagonists succumb to. No worries, sir.

Current Inmate Schedule

Saturday October 09, 2021 10:19:18 AM

Current Assignments (1 - 6 of 6)

Position #	Position Title	Type of Time	Room #	Days of Week	Start Time	End Time
001	CGA Re-Entry	Voluntary		Tuesday only Monday only	18:30:00 18:30:00	20:00:00 20:00:00
001	Narcotics Anonymous	Voluntary		Thursday only	18:30:00	19:45:00
008	Alcoholics Anonymous	Voluntary		Saturday Only	10:00:00	11:30:00
021	Lifer Support Group (LSG)	Voluntary		Wednesday only	18:30:00	20:00:00
007	Center for Council	Voluntary		Saturday Only	11:30:00	13:00:00
001	B RECYCLE LEAD PERSON CREW	Full Time		Sunday through Thursday Sunday through Thursday	08:00:00 12:30:00	12:00:00 15:00:00

As you can see, I attend several groups. Believe you me, there's a predominant sympathy engram-computation game going on with a lot of these guys. I'm ever vigilant to withstand the contamination of aberration by speaking up for alternative considerations — as a proponent of Responsibility. Needless to say; $E=MC^2$ equates to the $PV=ID \times$ altitude — doesn't it? After all, I live as a testament of Logos (1: the divine wisdom manifest in the creation, government, and redemption of the world, i.e. 2: reason), as L. Ron's emissary. Having completed the VM curriculum, it's what I do.

The Volunteer Minister is a person who strictly on a volunteer basis helps out his fellow man by providing simple, basic spiritual counseling to people he meets to assist them in overcoming difficulties they may be having.

William Goehler

NAME and NUMBER: Goehler, William K77832

IP was received into CDCR on 12/18/1997. As a GP inmate, when IP transferred to MCSP B-Yard, he took the initiative to ask for self-help regarding anger management, overcoming depression, and managing anxiety for which he received certificates of completion. These were not required since he was not in the MHSDS. We had met several times to discuss parole anxiety and he continues to consciously navigate toward his eventual parole from CDCR. IP has also completed several other self-help groups and programs as a means of rehabilitation to prepare for eventual parole.

GENERAL CHRONO

Now, I have to admit that maintaining PV=ID^x altitude amongst sympathy computations provokes Thought, and makes time fly: $E=Mc^2$. I've been clean and sober since we first met and you demonstrated that TR-ID though, so why am I occupying AA/NA/CGA space?! Other than these being the only group activities available during the COVID situation where I can demonstrate the 12th Step: I expect the Parole Board expects attendance - and the benefits of participation.

Nevertheless, imagine the Tone I strive to rise in those groups. Hence the above document demonstrating my ability to consult with a noosphere specialist. Let me tell you sir, that 3rd Dynamic consult never once addressed earlier-similar anxiety - such as the Exam-Anxiety I experience with every mid-term and Finals I face with College classes. I'm maintaining a 4.0 (I think - or nearly so), but good gawd man! the anxiety seems to impel me to overcome my doubt of aptitude. Me!!!

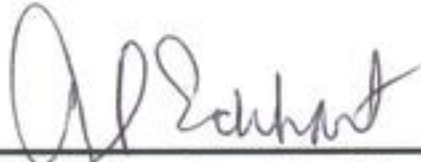

Here's the thing Joe, only a fellow Scientologist can help me discover that basic basic impelling anxiety I have to discharge. I suspect the As-issness seethed in Factor #1: Before the beginning was a Cause and the entire purpose of the Cause was the creation of effect. (Alas the corresponding anxiety of Gen. 1:1,2,3 Ordo ab Chao?)

The Causative Action's Program is a 12 week, 24 scenario program that allows for participants to provide feedback on occurrences that could happen in everyday life. The multiple choice answers given, allow for facilitators to decipher whether the participants have good, moderate or poor decision making skills. All participants will have completed a minimum of 24 hours of program time and will receive a score sheet analyzing the answers they selected.

(IN-CELL PROGRAM COMPLETION) GENERAL CHRONO

It's important to me that you understand what I've learned from the enculturating College classes, as well as the contagious sympathy groups. I learned that I don't have to agree - nor oppose - other dimensions of view. I merely need be able to confront their apparent Is-ness well enough to understand Cause of effects.

That understanding permits the freedom exempting me from arbitrary traps of disagreement and opposition. That understanding permits the freedom To BE a Self-determined Creator of solutions in my particular Zone of influence - in accord with the Serenity Prayer: Grant me the serenity ... to accept the things I cannot change, courage to change the things I can, and wisdom to know the difference.

With 33 Certificates from L. Ron's Empire of Wisdom, I'm confident I understand the difference between good and evil; between Natural law and Arbitrary law. And as evidenced by the past seven years expansion of my Scientology Prison Outreach, I live up to Hubbard's definition of a Scientologist; i. one who better's the conditions of himself and the conditions of others by using Scn. technology. Don't you agree?

sure to work more in this area so that you can grow and advance your skills in your decision making process. We also suggest completing the FTIO Self Control program which dives in depth in self introspection.

Personal Assessment from you Facilitator:

Your score 77

Commentary: We suggest Participating in a program That emphasizes Self introspection 😊 LOL

Apparently my 200 word essays made no difference, per the codified columns point system. That's systemization for ya though. "Decision making" is deferred to other-determinism. There's a lot to say about maintaining No Responsibility, isn't there? Instead I will proffer: Certainty in all three universes must be regained to help the resolution of any problem. My point of view, Your point of view; and Mutual points of view.

note: see Hubbard Chart of Human Evaluation, posted earlier with the Tone Scale textbooklet... to help increase Certainty of three universes.

In any case, I'm doing fine. I recall a time L. Ron said: "The need for impingement (enough jolt to attract attention) causes a lot of wild thoughts. The mobs of people are sufficiently numerous today to cause a "herring effect." No one herring is given any attention by the rest of the herring. Public Relations attempts to break out of this inattention by being a more startling herring. But if over done, the rest of the herring believe one is a shark. To solve this dilemma, it is best to be one's own self..." I get it. It's a lot like the lesson I learned in my ART course: Too much originality throws the audience into unfamiliarity and therefore disagreement.

Such is LIFE, eh? ART is in the eye of the beholder. In this case, COMMENTS and/or Questions are always welcome. For the Love of Truth.

Causative Action scoring sheet: Participant name William Gochler CDC# 177832

Assignment #	5 Points	4 Points	3 Points	2 Points	1 Points
1	A	D	C	B	E
2	A	D	B	C	
3	B	C	D	A	E
4	B	C or A	C or A	D	E
5	A	C	D	B	E
6	B	A	C	D	
7	D	E	B	A	E
8	B	A	C	D	E
9	A	C	B	D	
10	C	B	A	D	
11	B	C	A	D	
12	A	C	B		
13	C	B	D	A	
14	B	D	C	A	
15	A	C	B	D	
16	D	A	B	C	E
17	B	C	A	D	E
18	E	D	C	B	A
19	B	A	C	D	E
20	C	B	A	D	E
21	C	D	A	B	
22	D	A	E	C	B
23	D	A	C	B	
24	A	B	C		

Based on the above scoring system we have ranked your decision making.

If you scored 85-100 points you have good decision making skills. Scoring in this range provides that given many scenarios you would generally pick the reaction with the best outcome. If you were to reproduce these decisions in real life scenarios you would pick the reaction which would provide little to no negative consequences.

* If you scored 70-84 you have moderately good decision making skills. Scoring in this range provides that while you will pick the reaction with the best outcome in many scenarios you still have some work to do with your decision making skills. In the future you should practice thoughtfulness and take a few moments to think before you react to scenarios. In these moments think thru your choices for a reaction and the negative consequences each may have then chose the least negative or most positive reaction.

If you scored below 69 you have poor decision making skills. Scoring in this range provides that you will likely pick the reaction with the worst outcome which likely carries negative consequences. If you scored in this range you should work harder to practice thoughtfulness and be sure that you are taking time to process your potential reaction and the negative consequences that it carries. You want to be

* "Courage to change the things I can" - requires courage for a reason. The 6 alternate answers in the 1pt column simply introduced an option not to defer responsibility, but rather to accept responsibility.

CERTIFICATE of ACHIEVEMENT
