A RETALIATORY CHRISTMAS

Here I sit on Christmas Eve separate from my loved ones because of the vindictive retaliatory criminal nature of this UCI administration. Hey its nothing new with the FDOC having criminals over seeing the inmates. And that's what this is. Its just that these criminals are smart enough to come into the prison system and victimize those the public have little to no sympathy for. So when your a high ranking administrator and victimizing the poor and in most cases uneducated, then its all good. It's a shame that this happens inside the American prison system, but it is what it is. As I showed you they violated rules and laws in order to punish my family for what I wrote about them. You know one of my attorneys retired this month, and came up here to see me and said the FDOC is the most corrupt prison system I've ever seen. And she had worked in Ohio and Pennsylvania. That just goes to show you how messed up Florida is. And here we are about to appoint a new FDOC Secretary who hid behind an attorney during a criminal investigation. Yes that just shows that the FDOC is still going backwards. My Christmas wish is that someone smartens up, and cleans this cesspool of a department up! Which starts with giving all FDOC employees a mandatory polygraph exam. For this is the only way to get rid of the criminals who are overseeing the inmate population. Yes that is my wish! And if it ever happens you'll see a large number of FDOC employees running for the unemployment lines. Yes high ranking administrator's will be retiring and resigning at a break neck pace. Yes that is my Christmas wish, is that the Legislature passes a law requiring mandatory polygraph exam's, for these criminals who are watching over some of the most vulnerable human beings that's in their care custody and criminal control. Have a Merry Christmas. God bless you all.
